Reproduction, Inc.

INTRODUCTION

Alfred C. Kinsey was a biology professor at Indiana University when, in 1938, he was asked to teach a course in marriage. It was felt that such a course should incorporate information about sex, but at the time little scientific data on the subject was available. Kinsey began questioning students about their own experiences, gradually including other students, faculty members, and people out in the surrounding communities. In time he developed a standardized list of questions, a pattern for questioning, and a method of recording the data in a secret code. Kinsey's emphasis on confidentiality resulted in the development of a series of steps assuring complete and permanent secrecy regarding the identity of interviewees. This strict policy of confidentiality was maintained by Kinsey's successor, Paul H. Gebhard, and it continues to be observed. No names were ever affixed to individual data sheets; instead, each was coded and the key to that code has been locked away and is permanently secure from access by unauthorized individuals. Even the coded data sheets are available to only a limited number of Institute employees with special permission. However, the data itself, which ultimately incorporated the results of interviews with a nation-wide sample of over 18,000 histories, has with the help of NIMH grant MH-0772 been entered into a computer file and is available for research projects by qualified researchers.

One of the main conclusions of a committee appointed by the Commission on Statistical Standards of the American Statistical Association to review the statistical methods used in Sexual Behavior in the Human Male (A. C. Kinsey, W. B. Pomeroy and C. E. Martin. W. B. Saunders, 1948) was that in the systematic coverage of the material, the number of items covered, the number and variety of methodological checks employed, and the method of interviewing, the Kinsey methodology was

superior to all the other leading sex studies of the period. (Cochran, Mosteller and Tukey, 1953).

This Interview Packet has been compiled in order to assist other researchers to gather contemporary data; to add to or to update, to challenge or to verify the initial findings of the Kinsey studies. The Institute's Information Service provides access to the original statistical data, and conducts bibliographic searches of its unparalleled collection of literature related to human sexuality. Under the leadership of the current director, June Machover Reinisch, Ph.D., the Institute continues research furthering understanding in this most fundamental area of human knowledge.

INTERVIEWING METHOD

Our interviewing is best described in terms of three phases: a prologue, a data-gathering phase, and a concluding phase. The prologue varied in length according to how much the respondent knew of our work and how much reluctance or hesitancy was manifest. Consequently, the prologue varied in duration from perhaps two minutes to ten. We felt that the respondent was entitled to know the aim of the research, the nature of the Institute, the safeguards employed, the general structure of the interview, and—most importantly—that we made no evaluations or judgments. We did not distance ourselves from the respondent by assuming a coldly objective impersonal role; this is an error commonly found today. Instead, we presented ourselves as interested and sympathetic researchers who were asking the respondent to help us in obtaining information of great social benefit. Many respondents were naturally curious as to what sort of individual they were about to entrust their secrets; we were quite willing to give information as to our marital status, professional background, and similar items. We never divulged our own sexual histories or preferences, parrying any query by saying, "I'm sorry, but we keep our own histories just as confidential as we will keep yours."

A vital part of the prologue was expressing sincere appreciation of the respondent's willingness to cooperate, and we assured everyone that his or her contribution was valuable regardless of what it did or did not contain. We also observed the social amenities: shaking hands, offering a chair, and making a small variety of cigarettes and matches available. We took pains to seat ourselves at a normal conversational distance making sure that no table or desk was interposed to render the situation like an interrogation.

During the prologue some respondents who were uncertain of the interviewer's objectivity tried to trap us into making a value judgment. For example, the respondent may have asked, "Don't you think it is terrible the way some of these young people today are behaving?" If the interviewer agreed, he labeled himself a conservative; if he disagreed, he was viewed as amoral or possibly immoral. The answer was neither to agree nor disagree but to make some neutral objective remark such as saying that rapid social and technological changes are producing stressful re-examination of previously unquestioned standards, and it is all the more important that research be done so that we can better solve our social and personal problems.

The data-gathering phase which constituted the bulk of the interview consisted of asking our questions in a sequence beginning with the least sensitive subjects (e.g., demographic items) and gradually working to the most sensitive as rapport developed. The sequence was, however, not immutable. If a person seemed anxious to discuss some topic and resisted being held to our sequence, we accommodated. Also, respondents inevitably gave data out of sequence; it behooved the interviewer to record this at the moment rather than to ignore an item and ask about it subsequently. For example, in inquiring about past residence, a respondent may have said, "When my parents moved to Detroit, my aunt was able to take care of me because I was an only child." It would have been a serious error to fail to record this and some minutes later inquire as to brothers and sisters. The respondent was apt to interpret such a faux pas as meaning the interviewer was not paying attention. Rapport was increased by remembering and making this evident. In the example cited, when coming to the subject of siblings, the interviewer would have said, "You mentioned you were an only child, but were there any brothers or sisters who had died?"

Source: Paul H. Gebhard and Alan B. Johnson. The Kinsey Data: Marginal Tabulations of the 1938-1963 Interviews Conducted by the Institute for Sex Research. Philadelphia: W. B. Saunders, 1979. pp. 18-22.

One of the most vital aspects of data gathering is to ask the questions clearly and frankly. Euphemism must be avoided like the plague since it may not result only in misperception of the question, but it shows the interviewer is embarrassed. The respondent too should be discouraged from using euphemisms. Pomeroy was famous for quickly eradicating such terms; when a person said "we slept together" he would, with a straight face and interested look inquire, "and did you have intercourse?" Certain other words and phrases should be stricken from the interviewer's vocabulary; "Did you ever . . .," "indulge in," "resort to," etc.

To make the admission of behavior easier we placed the burden of denial on the respondent. For example, we never asked if the person had ever masturbated but instead asked how old was he or she when masturbation began. Note the assumption that the activity occurred and the suggestion that it began as a natural event rather than a volitional act. Periodic reassuring and supportive comments were employed, particularly in connection with sensitive topics. These were not phrased so as to encourage exaggeration—the admission of bizarre or extreme behavior was not rewarded—but were non-evaluative remarks such as "It's good you remember so accurately," "I see," or "That often happens."

We maintained what is best described as an elastic control of the interview, keeping the respondent within the limits of the desired subject matter. Sometimes it was necessary to firmly but inoffensively interrupt by saying, "That's interesting, but let's take it up later; now let's finish what we were talking about."

A lengthy complex statement by a respondent was usually concisely rephrased by the interviewer to ascertain if he had correctly grasped the essentials.

While the point of each question was clearly fixed, the phraseology was sometimes altered to suit the understanding of the respondent and to enhance rapport, although in the majority of cases a middle- to upper-middle-class vocabulary sufficed. With a physician we would employ terms such as coitus, erectile impotence, and orgasm, whereas with a poorly-educated person we would refer instead to "sexual intercourse," "trouble getting hard," and "coming." Artificiality and condescension were scrupulously avoided. In particular situations (e.g., interviewing homosexuals) we used a limited amount of argot to demonstrate that we were conversant with the respondent's milieu and to increase rapport but argot was used with caution since misuse can be disastrous.

The interviewer actively assisted in getting correct ages and chronological sequences of events whenever the respondent had difficulty. This was done by referring to salient points in life. Thus, the interviewer would say, "Let's see now, was that before you went in the army?" or "Was that right after the divorce or was it while you were in Chicago?" Obviously, we had to keep the individual's life history continuously in mind which is something any expert interviewer must do. Similarly, the matter of frequencies of activity sometimes required the interviewer's help. Unusually high frequencies were viewed with suspicion and brought forth additional questions. For example, a man who had served in the army in Italy in World War II might say that during his stay in Italy he had coitus "nearly every day." Such an unlikely frequency would elicit a conversation similar to the following:

Interviewer: You said you were in Italy eleven months. How much time did you spend in combat?

Respondent: Oh, it added up to maybe five months or so.

Interviewer: And in those five months how often did you have intercourse?

Respondent (laughing): When you are up front you don't have any. You are too busy keeping alive.

Interviewer: Well, let's see now. Nearly every day would be about six times a week, but you were up front half the time so for that whole eleven months it would only average out to about three a week, right?

Respondent: Yes, I guess it would alright.

Interviewer: So when you weren't up front were you able to get off base six times a week? (slightly incredulous tone)

Respondent: Oh no. Our C.O. was tough about passes. We'd only get to town twice a week.

Interviewer: And each time you got to town would you have intercourse once or more than once?

Respondent: By the time you caught up with your drinking you only had enough money left for once.

Interviewer: Okay, let's do some arithmetic. You were having sex twice a week when you were not up front, but you were up front half the time. So that averages once a week for the whole time in Italy. Does that seem about right?

Respondent: Yes. You know when I think about sex in Italy I just think of the times in Naples.

By this laborious but necessary procedure, an unlikely coital frequency was reduced from six to once per week. Obviously, we only utilized this technique in cases where our suspicions were aroused and, consequently, exaggerations which fell within the range of probability passed uncorrected.

Deliberate or unconscious falsification was, we believe, detected if it were of consequential magnitude. The case history was essentially a life history and, hence, the component elements were interdependent. We were in a position to repeatedly cross-check the responses. For example, masturbation was generally covered before the other sexual outlets and if a previously stable masturbation frequency suddenly diminished to a substantial extent, we anticipated a compensatory increase in some other activity or an important change in life (e.g., illness). If we did not find a compensatory behavior or adequate explanation as the interview progressed, we became suspicious. These interrelated items in the interview were such that we were able to predict with considerable accuracy the portions of the interview as yet untouched; if our prediction did not materialize, we probed for an explanation. Behavior patterns are singularly stable in adults and dramatic changes put us on the alert. . . .

The importance of the concluding phase of an interview is often underestimated. The respondent is dismissed too often with perfunctory thanks and left feeling exploited. We were aware of this danger particularly because at the terminal part of our interview some subjects were quite emotionally involved. Hence, we provided a "cooling off" concluding phase in which we inquired if there was any additional information of relevance which they could provide, offered them the opportunity to ask questions about sex, and extended our thanks and appreciation. Needless to add, we also sometimes had to employ the usual disengagement devices when the concluding phase overlapped with our next appointment. In the great majority of cases the respondent departed in an emotional state which ranged from quiet satisfaction in having assisted an important project to a sort of euphoria resulting from catharsis. In those rare cases where the individual was markedly upset (as a result of facing the realities of his or her life or from recalling traumatic events) we felt it our obligation to spend more time with them even if it meant delaying or cancelling the next appointment.

The reputation of the Institute and the cooperation of subsequent respondents depended on the feelings of those interviewed and we took pains to see that no one left angry, disappointed, or upset. Thus, those interviewed spread the good word about us, and subsequent respondents came to us with rapport already established.

ITEMS COVERED ON SEX HISTORIES*

I. SOCIAL AND ECONOMIC DATA

1. Sex
2. Age
3. Date of birth
4. Race
5. Geographic origin
 - State of subject's birth
 - Countries, states of residence for a year or more
 - Parents' place of birth
6. Rural-urban background
7. Religious background
 - Denominations involved
 - Degree of adherence
8. Occupational history
9. Economic status
10. Educational history
 - Years of schooling
 - Colleges attended
 - College majors
 - Age upon leaving school
 - Age while in high school
- *11. Psychological test ratings
12. Recreational interests
 - Extracurricular activities in school and college
 - Moving pictures
 - Dancing
 - Cards
 - Gambling
 - Smoking
 - Use of alcohol
 - Use of narcotics
 - Use of marihuana
 - Hunting
 - Fishing
 - Reading
 - Sewing
 - Cooking
 - Housework
 - Special interest in music
 - Special interest in sports
 - Other special interests and sources of recreation
13. Athletic experience
 - On high school and college organized teams
14. Fraternity or sorority membership in college
15. Home background
 - Parents' occupational status
 - Parents' economic status
 - Parents' educational background
 - Parental marital history
 - Happiness of adjustment
 - Separation or divorce
 - Parent-child relationships
 - Attachment to father
 - Attachment to mother
 - Brothers, sisters
 - Number
 - Ages
 - Companions at 10 and at 16
 - Number
 - Relative numbers, male and female

16. Institutional history
 - Prison, orphanage, etc.
 - Army or Navy experience
17. Personality traits

II. MARITAL HISTORIES (FOR EACH MARRIAGE)

1. Marital status
2. Spouse's history
 - Age
 - Length of previous acquaintance
 - Length of engagement
 - Religious affiliations
 - Educational history
3. Age of each spouse at marriage
4. Years married, divorced, separated, or widowed
5. Common law marriages
6. Offspring
 - Sex
 - Ages
 - Mother's age at first childbirth
7. Abortions
 - Spontaneous
 - Induced
8. Marital adjustment
 - Rating
 - Sources of conflict

III. SEX EDUCATION

1. Sources of knowledge, ages when learned
 - Pregnancy
 - Coitus
 - Fertilization
 - Menstruation
 - Veneral diseases
 - Prostitution
 - Contraception
 - Abortions
 - Male erection (in female histories)
2. Parental contribution to sex education
3. Experience in observing sex behavior
4. Experience with graphic depictions of sexual activity
5. Formal sex education in school and college
6. Attitudes on nudity
 - Of parents
 - Of subject

IV. PHYSICAL AND PHYSIOLOGIC DATA

1. General development and health
 - Height
 - Weight, and maximum ever reached
 - *Pulse rate
 - *Blood pressure and BMR
 - Thickness of lips
 - Handedness
 - History of chronic illnesses and handicaps
 - History of venereal disease

* Items marked with asterisks (*) are checked only for selected series of individuals who are available for special study.

Source: Alfred C. Kinsey, Wardell B. Pomeroy and Clyde C. Martin. Sexual Behavior in the Human Male. Philadelphia: W. B. Saunders, 1948. pp. 63-70.

IV. PHYSICAL AND PHYSIOLOGIC DATA (Cont'd)

2. Adolescence: ages at onset of
 - Erotic responsiveness
 - First orgasm (and its source)
 - Pubic hair growth
 - Breast development (in females)
 - Breast knots (in adolescent males)
 - Menstruation
 - Voice change
 - Onset of rapid growth
 - Completion of growth
3. Genital characters: male
 - Testes
 - Descent
 - Position (of right and left)
 - *Size
 - History of injury
 - Penis (subject's self measurement)
 - Length and circumference, normal and erect
 - Angle, erect
 - Curvature, erect
 - Direction of carriage, erect
 - History of circumcision
 - Age involved
 - Presence of frenulum
 - Extent of foreskin
 - Phimosis
 - Hypospadias
 - Pre-coital mucous secretion
 - *Sperm examination
 - Erection
 - Speed
 - Presence of pulsation
 - Potency in coitus
 - Duration
 - Morning erections, frequency
 - 4. Genital characters: female
 - Clitoris
 - *Size
 - *Adherence of foreskin
 - Hymen
 - Status
 - History of rupture
 - Vaginal mucous secretions
 - Amount
 - Variation in menstrual cycle
 - 5. Menstruation
 - Age at menarche
 - Length and regularity of menstrual cycle
 - Duration of flow
 - Pains
 - History of menopause
 - 6. Erotic responsiveness
 - Auto-erotic
 - Observing self in mirror
 - Observing genitalia
 - Exhibitionism
 - Homo-erotic
 - Thinking of own sex
 - Observing own sex
 - Observing erect genitalia
 - Observing buttocks
 - Burlesque shows
 - Nude art
 - Obscene stories
 - Erotic literature
 - Erotic moving pictures
 - Erotic photographs and drawings
 - Dancing

- Hetero-erotic
 - Thinking of other sex
 - Observing other sex
 - Nude art
 - Burlesque shows
 - Erotic pictures
 - Obscene stories
 - Erotic literature
 - Moving pictures
 - Dancing
 - Physical contacts
 - Biting
 - Being bitten
- Zoo-erotic
 - Observing animal coitus
 - Physical contacts with animals
- Non-sexual stimuli
 - Music
 - Alcohol
 - Motion
 - Pain
 - Sadistic situations
 - Masochistic situations
 - Other emotional situation (especially in children)

V. NOCTURNAL SEX DREAMS

1. Ages involved
2. Frequencies of dreams with orgasm
3. Frequencies of dreams without orgasm
4. Content of dreams
 - Homo-, hetero-, or zoo-erotic
 - Other

VI. MASTURBATION

1. Ages involved, pre- and post-adolescent
2. Sources of learning
 - Conversation and reading
 - Observation
 - Participation, heterosexual or homosexual
 - Self discovery
3. Frequencies
 - Maximum per week
 - Means at each age
4. Techniques
 - For male
 - Manual
 - Frictional
 - Oral
 - Special devices
 - Urethral insertions
 - For female
 - Breast
 - Clitoral
 - Vaginal insertion
 - Frictional
 - Thigh pressure
 - Urethral insertions
 - With devices
5. Time required for orgasm
6. Accompanying imagery
 - Self
 - Homosexual
 - Heterosexual
 - Zoo-erotic
 - Sado-masochistic
7. Subject's evaluation
 - Period involving fear or conflict
 - Sources of resolution of conflict
 - Rejection: period involved, reasons for
 - Estimate of moral, psychic, physical consequences

VII. HETEROSEXUAL HISTORY

1. Pre-adolescent play
 - Ages involved, frequencies
 - Companions: ages and number
 - Techniques
 - Exhibition
 - Physical exploration
 - Vaginal insertion
 - Urethral insertion
 - Mouth-genital contact
 - Coitus
2. Pre-marital petting
 - Ages involved
 - Frequencies
 - Companions
 - Number in grade and high school
 - Number between high school and marriage
 - Techniques
 - General body contact
 - Lip kissing
 - Tongue kissing
 - Breast manipulation, manual
 - Breast manipulation, oral
 - Manual manipulation, male genitalia
 - Manual manipulation, female genitalia
 - Mouth-genital contact on male, on female
 - Genital apposition without entry
 - Orgasm without intercourse, in male, in female
 - Frequencies
 - Ages involved
 - After-effects
 - Nervous disturbance
 - Genital cramps
 - Masturbation
3. Attitudes on pre-marital coitus
 - Sources of restraint
 - Moral
 - Lack of opportunity
 - Lack of interest
 - Fear of pregnancy
 - Fear of venereal disease
 - Fear of social disapproval
 - Desire for virginity in fiancée
 - Desire for marriage
 - Desire for children, number desired
 - Intention to have, or to continue coitus
 - Evaluation of own coital experience
4. Experience in pre-marital coitus
 - Ages involved
 - First experience
 - Age and nature of partner
 - Virginity of partner
 - Speed of orgasm
 - Physical satisfaction
 - Frequencies in coitus
 - Partners
 - Total number
 - Prostitutes or companions
 - Age range
 - Youngest since subject was eighteen
 - Age preference
 - Marital status
 - Consanguinity
 - Virginity

- Resulting pregnancies, births, abortions
 - Ages involved
 - Legal aspects
 - Financial aspects
- Arrangements
 - Places utilized for coitus
 - Opportunity and desire for nudity
- 5. Marital intercourse (separate records for each marriage)
 - First experience
 - Age of each spouse
 - Virginity of partner
 - Speed of orgasm
 - Physical satisfaction
 - Lapse between marriage and first coitus
 - Frequencies
 - Maximum ever
 - Means at various periods
 - Relation of sexual and marital adjustments
- 6. Extra-marital relations
 - Ages involved
 - Partners
 - Number
 - Age range
 - Marital status
 - Companions or prostitutes
 - Frequencies
 - Extra-marital coitus
 - Extra-marital petting without intercourse
 - Spouse's knowledge of the intercourse
 - Effect on marriage
 - Desire for further experience
- 7. Post-marital intercourse
 - Ages involved
 - Partners
 - Number
 - Age range
 - Marital status
 - Companions or prostitutes
 - Frequencies
- 8. Intercourse with prostitutes
 - Ages involved
 - Number of prostitutes
 - Frequencies
 - Mouth-genital techniques
 - Comparisons with non-prostitutes
- 9. Coital techniques
 - Pre-coital play
 - Duration
 - Lip kissing
 - Tongue kissing
 - Breast manipulation: manual
 - Breast manipulation: oral
 - Genital manipulation: manual, by male and female
 - Genital manipulation: oral, by male and female
 - Frequency of orgasm
 - Coital positions: relative frequencies and preferences
 - Male superior
 - Female superior
 - Side
 - Sitting
 - Standing
 - Rear entry
 - Anal
 - Other variations

VII. HETEROSEXUAL HISTORY (Cont'd)

- Male orgasm
 - Duration of intromission
 - Multiple climaxes
- Female orgasm
 - Frequency
 - Multiple climaxes
 - Date of first orgasm in coitus
 - Relation to coital techniques
- Nudity
 - Frequency
 - Attitudes
- Preference for light or dark
- Fantasies during coitus
- 10. Contraceptive history: pre-marital, marital, extra-marital; techniques employed, satisfaction and effectiveness
 - Condom
 - Source
 - Testing
 - Lubrication
 - Breakage
 - Diaphragm or cap
 - Source
 - Type
 - Withdrawal
 - Douche alone
 - Materials employed
 - Safe period
 - Jelly alone
 - Other techniques
- 11. Group heterosexual activities
 - Circumstances, frequency
 - Number and nature of partners
 - Participation in strip poker
 - Fraternal and other group initiation activities
 - Observation of coitus
 - Of parents
 - Of friends
 - Of professional exhibitionists
- 12. Heterosexual prostitution (the subject as prostitute; males or females as heterosexual prostitutes)
 - Ages involved
 - First experience
 - Occasion
 - Partner
 - Pay involved
 - Frequencies per week
 - During first year
 - During subsequent periods
 - Maximum number of partners per day, per week
 - Average number of partners per day and per week, at various periods
 - Nature of partners
 - Total number
 - Age: range, average
 - Number who return
 - Longest affair
 - Love affairs
 - Percent married
 - Number of virgins
 - Occupations
 - Racial groups
- Sources of contacts
 - Personal introductions by friends
 - In established houses of prostitution
 - Ages of subject
 - Number of houses involved
 - Size of houses
 - Geographic location
 - Physical or other force used to hold prostitutes
 - In own established house
 - Time involved
 - Geographic location
 - Number of persons employed
 - Street solicitation
 - Percent of rejects
 - Percent causing trouble
 - Petting techniques
 - Partners active in petting (in 9 techniques shown in VII-2)
 - Subject active (in same 9 techniques)
 - Coital positions (as shown in VII-9)
 - Orgasm, frequencies for subject
 - Prophylaxis and contraception
 - Examination of partners
 - Condoms
 - Antiseptic douche
 - Other prophylactics
 - Variant techniques
 - Anal coitus
 - Anilinctus
 - Flagellation
 - Other sadism
 - Masochism
 - Scatology
 - Voyeurism
 - Fetishism
 - Group activities
 - Age of subject
 - Frequency
 - Number of persons in group involved
 - Psychologic reactions
 - Exhibitionistic activity
 - Ages involved
 - Frequency
 - Sizes of audiences
 - Character of audiences
 - Psychologic reaction of subject
 - On first occasion
 - On subsequent occasions
 - Pay: range, average
 - Techniques of the exhibition
 - Income from prostitution
 - Range of payment
 - Average payment
 - Average earned per week, per month
 - Percent paid to houses
 - Percent paid to procurer
 - Rolling
 - Frequency
 - Range of intake
 - Average intake

VII. HETEROSEXUAL HISTORY (*Cont'd*)12. Heterosexual prostitution (the subject as prostitute; males or females as heterosexual prostitutes) (*Cont'd*)

Social involvements

With friends
With families
With police

Frequency of arrest and conviction

For prostitution

For rolling

For other concomitants

Legal penalties

Bases of dismissal

Amounts paid for protection

Socio-sexual background

Factors involved in beginning prostitution

Chief factors for continuing prostitution

Extent of pleasure derived from sexual relation

Plan for continuance of prostitution

Psychologic conflicts of prostitute

Effects on marriage

Willingness to recommend prostitution to others

VIII. HOMOSEXUAL HISTORY

1. Pre-adolescent play

Ages involved, frequencies

Companions

Ages

Number

Techniques

Exhibition

Manual manipulation

Vaginal or urethral insertion

Mouth-genital contact

Anal

2. Post-adolescent experience

Ages involved

First experience

Age

Partner

Age

Race

Relation to subject

Circumstances

Place of contact

Initiation of approach

Techniques employed, passive, active, or mutual

Financial arrangements

Satisfaction for subject

Age of first experience with each technique, passive and active

Manual

Oral

Anal

Breast (for female)

Femoral

Full body contact

Frequency

During first year

Maximum, ever, per day

Maximum, ever, per week

Average per week during each year

Total number of contacts

Partners

Total number

Age range

Comparisons with age of subject

Age preferences

Reasons for age preferences

Social position

Students in grade school

Students in high school

Students in college

Clergy

Teachers

Art groups

Professional persons

Business groups

Armed forces

Laboring groups

Law enforcement officers

Highest position held

Number married

Number without previous homosexual experience

Number of oncers

Duration of longest affairs

Relations involving love and affection

Percentage of approaches which are rejected

Races involved: white, Negro, others

Techniques

Petting, passive and active

Lip kissing

Tongue kissing

Body kissing

Breast manipulation, manual

Breast manipulation, oral

Genital manipulation, manual

Genital manipulation, oral

Flagellation on back, buttocks, genitalia

Urethral insertions

Anilinctus

Nudity

Positions involved (including 69)

Preference for light or dark

Places involved

Subject's orgasm

Frequency by each technique or by spontaneous ejaculation

Partner's orgasm

Frequency by each technique or by spontaneous ejaculation

3. Psychic reactions

Preferences for

Masculine or feminine type of partner

Partner of particular height

Partner of particular weight

Partner of particular complexion

Particular amount of body hair

Particular genital characteristics

Particular breast characteristics

Circumcised partner

Other physical qualities of partner

Reaction to odor and taste, genitalia and semen

VIII. HOMOSEXUAL HISTORY (Cont'd)

4. Sources of contacts

Personal friends
 Pick-ups
 Street
 Park
 Hotel
 Theatre
 Tavern
 Night club
 Restaurant
 Beach
 Transportation terminal
 Public bath
 Hitch hiking
 Other places

5. Social conflicts

Difficulties met in home, school,
 community, business
 Arrests, court action, penal
 history
 Blackmail, active and passive
 Robbery, active and passive
 Restriction to homosexual asso-
 ciates

6. Homosexual prostitution

Subject as prostitute
 Frequency
 Situations
 Amounts involved
 Long-time maintenance as
 prostitute
 Subject paying prostitutes
 Frequency
 Situations
 Amounts involved
 Long-time maintenance of
 prostitutes

7. Subject's self analysis

Recognition of physical stig-
 mata
 Carriage and movements
 Voice
 Hip movements
 Walk
 Dress
 Make-up
 Interest in transvestism
 Other qualities
 Conflicts and regrets
 Expectancy for continuation
 Expectancy for transfer to
 heterosexual
 Recommendation of the homo-
 sexual for others
 Subject's analysis of factors
 involved
 Subject's estimate of extent of
 homosexuality
 Among males, females
 Among Negroes, whites

IX. ANIMAL CONTACTS

1. Ages involved
 2. Frequencies
 With orgasm
 Without orgasm
 3. Animal species involved, with
 preferences
 4. Techniques
 Masturbation of animal
 Vaginal coitus
 Mouth-genital contact
 Passive
 Active

CODING

The data obtained in each interview are recorded directly in code. Coding at the time of the interview serves several functions: (1) It facilitates recording, making it possible to secure a complete history without slowing up an interview, and without losing rapport with the subject. (2) It preserves the confidence of the record, and this is particularly important in a sex study. (3) It facilitates the transference of the data for statistical analyses. (4) It increases the accuracy of the coding because the subject is present at the time of the operation. Where there is uncertainty about the classification of the data, additional questions may be asked and final determinations may be made on the spot. (5) Coding is of supreme importance in conserving space, making it possible to put the whole of the basic history on a single sheet, or on two sheets in the case of individuals who have especial experience in a particular behavior. It also makes it easier for the investigator to comprehend the whole of such a history since it is possible to correlate any item with any and every other item by a rapid scanning of the page of simple and precisely placed symbols. (6) It facilitates and encourages the systematic coverage of the same items on each and every history. At the end of an interview, a rapid examination of the page will show what items have been missed, and the blank places can be filled before the subject has departed.

The record is made on a ruled form which provides a number of blocks. Each aspect of the sex history is recorded in a particular block or portion of a particular block. The significance of any symbol depends, consequently, upon its position in a particular block on the page.

Each block has its own system of symbols, its own independent code. In each block, the available symbols are sufficient in number to designate all of the categories into which the particular data will be classified during subsequent analysis.

Adapted from: Alfred C. Kinsey, Wardell B. Pomeroy and Clyde C. Martin. Sexual Behavior in the Human Male. Philadelphia: W. B. Saunders, 1948. pp. 71-73.

The code used is so flexible that it is possible to handle every type of overt activity and every sort of attitudinal situation.

The code provides for a considerable series of classifications of each item. Rarely is it a matter of alternative possibilities--of a yes or a no. It is the usual statistical experience that six to a dozen or twenty categories, and occasionally a few more, provide the number of points best designed to establish a curve; and in most instances there should be that many possibilities in the code for each item, in each block.

Where the nature of the code allows, as in using numbers to designate the ages or years involved, more detail than is used in the subsequent analysis may be recorded. It sometimes happens that such detail proves useful in making finer calculations than were originally planned.

The symbols used in coding data include various mathematical signs and numbers for recording ages, the years involved, frequencies, and still other items. In addition, numbers, letters, symbols derived from standard practice in biology, chemistry, physics, and the other sciences, and some unique symbols are employed.

Each interviewer has to memorize the code and learn the significance of each block, as well as the pertinent symbols.

In coding items that are not discrete in nature, it is necessary to make precise definitions to which each coded symbol should apply. The coding done by different interviewers on a project must constantly be checked to provide strict standardization. This is especially important in coding attitudes, intensities of response, and other non-discrete materials.

CODING ABBREVIATIONS

a	active example; e.g., GOa means respondent is the active participant in genital-oral activity rather than the passive receiver, GOp
Ab	induced abortion
A	aunt; approval (in Homosexual block)
B	Baptist; black; books
BS	bisexual
BD	Bull-dyke
C	Catholic; confirmation; coitus; companion; city
Cpm	premarital coitus
Cm	marital coitus
Cx	extramarital coitus
Cd	coitus after break-up of marriage
cf	refer to
CL	common law: lived openly as husband and wife for at least a year; does not apply to homo-sexual community
cli	climax; orgasm
cos	cousin
-d	to date
D	dreams; disapprove (only in Homosexual block)
d	day
Div	divorced
Dic	died

Source: Wardell B. Pomeroy et al. Taking a Sex History. New York: Free Press, 1982. pp. 25-29.

e	each
f	formerly
F	father
G	genitalia
GC	gonorrhea
gd	grade down; diminishing in frequency
gu	grade up; increasing in frequency
GO	genital-oral
H	homosexual
HS	public high school
Hsb	husband
J	Jewish
kp	keep
li	lower inhibitions
M	marriage; mother; Methodist; masturbation; masochist
Mil	military
m	minutes; mutual; month
O	does not apply. Example: If a person has had no extramarital coitus all the questions in the block would be recorded O
P	puberty; peers; petting; Protestant
p	passive
Pa	adult (only used in Sex Education block)
PS	private high school; psychiatrist
ψ	psychologist
Pr	prostitute
R	rural; religion
ref	referral
sib	siblings
Sep	separated
S	sadist; single
Sp	spontaneous abortion
T	teacher
th	thought about (only in Masturbation block)
TV	transvestite
TS	transsexual

U	urban; uncle
V	virgin
W	white
Wf	wife
w	with; week
ww	without
y	year
Z	zoophilia

SIGNS AND SYMBOLS

♀	female
♂	male
✓	always; yes; many; very; regularly
±	somewhat; now and then; less than a ✓
-	infrequently; rarely; occasionally
X	no; never; not; nothing; complete negative
✓✓	extreme positive response
✓✓✓	alcoholic; excessive; abusive
XX	extreme negative response
→	passage of time; progression from one point in time to another
-	up until or through
()	age before adolescence; also used to set a reply apart. For example, ✓-10 may mean ± at 10 but ✓(10) means a check up to age 10.
“ ”	what the respondent says, implying that the interviewer did not believe what was said.
[]	what the interviewer believes. For example, if a respondent says moral reasons are not a factor in refraining from premarital intercourse but the interviewer is skeptical, the proper coding would be “X” [✓].
○	a circle is placed around the age a deceased person would have reached at the time of history taking, followed by age of respondent when the death occurred. Example: (15) 9 Bro means the respondent's brother would be 15 years old if he had lived, but he died when the subject was 9.
*	remarks continued at bottom of the page
!	true and unusual

A four-symbol system is used to code degrees of frequency. A checkmark, ✓, means yes, positive, affirmative, of course, or always, depending on the context. An X means no, never, negative. A minus sign, -, denotes a small amount, rare, unusual, infrequent. A plus-or-minus sign, ±, stands for somewhat, more or less, or not always. For example, in coding the amount of alcohol consumption:

X	no alcohol at all
-	an occasional social drink
±	a few drinks a week and/or getting high on rare occasions
✓	1-3 drinks a day
✓✓	more than 8 oz. of alcohol a day
✓✓✓	alcoholic

Combinations of these symbols are also used. For instance, something that falls between a check and a plus-or-minus is called a check plus-or-minus ✓±. Something so rare that it is almost nonexistent but nevertheless is still mentioned might be recorded as -X. These and other variants are illustrated in the chapters on the individual blocks.

When age, frequency, or date is sought, the numbers themselves are often used. If the respondent was 25 years old at the time a certain behavior took place or if he is 5'11" in height, the actual number, 25 or 5'11", is inserted on the form.

It is possible to go beyond the scale. For example, if someone not only does not drink alcohol but belongs to the Women's Christian Temperance Union, he or she could be given an XX to emphasize the fact that the response is a very strong negative.

The check system is subjective because the interviewer must very often guess the intensity of the respondent's feeling. For example, if the interviewer asks, "Do you like to cook?" and the respondent replies, "Yes, I like to cook," that might warrant a check, but if the answer is, "Well, yes, I guess I like to cook," that response isn't nearly so enthusiastic and should be recorded as a ±.

It is most important for the interviewer to have his own set of definitions, and to adhere to them consistently. For example, in the coding for alcohol consumptions shown above, different interviewers might use different criteria for light or heavy use.

The code is in part based on degree. For example, a percentage figure is recorded when a prostitute is asked, "What percent of your tricks return to you more than once?" or when the interviewee is asked, "What percent of time do you climax?"

Distributions of frequency are recorded by indicating the number of times above the slash mark, /, and whether the standard is by day, week, month, or year below the slash. If it's by the week, the w is not used, since most people seem to think in terms of weeks.

For example:

- 4 times a week is recorded 4/
- 4 times a day is recorded 4/d
- 4 times a month is recorded 4/m or 1/
- 4 times a year is recorded 4/y

3 to 4 times a week is recorded 3-4/
once a month can be coded as either 1/m or 1/4 (once every 4 weeks)

Since the interviewer is often obliged to do some mental arithmetic in order to record simply and economically, calculations are made on the basis of a fifty-week year. If something happened six times a year, therefore, it could be recorded as 6/y or 1/8.

A numerical attitude scale from 1 to 4 is used to measure degrees. For example, degrees of marital happiness are recorded as follows:

- 1 very happy
- 2 more happy than unhappy
- 3 more unhappy than happy
- 4 very unhappy

A coding of 1→4 means that the marriage began as very happy and changed to very unhappy. A relationship recorded as 2-3 means that it is sometimes more happy than unhappy, and at other times more unhappy than happy.

When the interview is over, the interviewer quickly scans his coded sheet to check whether there are any blanks indicating that a question was not asked. Before the respondent leaves, the interviewer can easily ask these questions to ensure that a complete history has been taken.

F&E FORM NO. 4-75-2

- 1. Age**
At last birthday
- 2. Birth date**
Day, month, year
- 3. Marital status**
Single, married (ever)
These are the only two possibilities
(Early histories had E and D, meaning engaged and divorced, + Std = going steady)
- 4. States and countries of residence**
State or country of birth even if lived there less than one year
Must live in any other state or country a continuous year
College residence not counted unless it is also subject's legal residence
Ages lived in state or country, e.g., Cal. -6, Pa. -d

BACKGROUND DATA A

5. Cities of residence
 - List those lived in at least one continuous year
 - The cities must be fairly large ones rather commonly known to most people
 - Record if live near large city (e.g., n. Phila)
 - Early histories gave section of state if there were no cities as residence (x do now)
6. Source of history
 - Usually indicates city and institution or group contact
 - Often indicates invitation (Inv) or volunteer (Vol)
7. Subject's occupational class
 - If subject is a dependent, he gets the occupational rating of the home in which he was raised. (Early histories recorded him as 0, followed by occupational class of his parents in parentheses)
 - Fill in at time of taking history
 - Try to reduce complexity by giving overall rating if possible
 - 10 categories = 0 - 9
8. Cross references to histories of other persons related to the subject
 - Do not go beyond first cousin
 - Close sexual partners and fiancés are shown
9. Date of history
10. Sex of subject
11. History number
12. Interviewer's initial. Kinsey interviews lack initial
13. Asterisks show that there are additional pages of history

14			17		20		21		22		23	
15	16		18		19							

14. Race -- cultural group

We are mainly after the cultural aspects of race rather than the biological aspects.

If a person has Negro blood, but passes as a white, he would be called W, with explanatory note. If a person is part Indian and part N, but is thought of as N by his associates, he would be called N (with also indication as part Indian).

After N a check scale indicates the darkness of skin

- = very light, ✓ = very dark

If a person is foreign-born and raised, the foreign country is put in parentheses after the race

15. Religion

First the major category (P, C, J, X) and then the current degree of church attendance

Refer to published volumes as to how degree of devoutness is determined

BACKGROUND DATA B

15. Religion (cont.)
 X is used very sparingly and only when subject does not identify himself as P, C, or J
 ✓ = once a week
 ± = once a month
 - = 1-4 times a year
 If religion changed, note this with ages
 e.g.: Px f C ✓ (-15) → P ✓ (-20)
16. Religious denomination
 If P, then put the particular denomination; if C, put the frequency of confession; if J, indicate whether orthodox, conservative, or reformed
17. Fraternity
 This must be a collegiate social fraternity or sorority
 ✓ or x
18. Education
 Count the grade as the grade entered rather than the grade completed
 "Entered" means more than a few weeks
 M.A. equals 18, Ph.D. or M.D. equals 20
19. Colleges attended, degrees, and major subject
20. Occupations
 Must be for a continuous year
 Indicate number of years involved
 Give descriptive titles which can be classified for the determination of #7
 Try to limit to major occupations
 Do not record here military service unless it is the subject's profession
 Military service data, #347, is covered at the bottom of the history sheet
21. E's evaluation of S
 Items usually covered are: degree of cooperation, introversion-extraversion, obvious physical defects, physical characteristics, aggression-submission, intelligence, memory
 The following evaluations are to be routinely made:
 Degree of cooperation
 Intelligence
 Physical appearance if marked in either direction
 Drive (✓, Av, -, x)
22. Special items
 SO, armed forces, drug, SP, ALC, SDM, TV, fetish, Pr, Pimp, Clnr, Diary, etc.
23. Prison
 Name of prison, state, ages in prison, length of time served, and offense

24	25					
26						
27						
28						
29						

U.S. GOV. PRINTING OFFICE

- 24. Current health
We are interested particularly in ill health or defect which affects the social adjustment of the individual
- 25. Health as a child
Cf. comment under #24
- 26. Extra-curricular activities in high school and college (combined)
The subject is asked specifically about glee club, band, orchestra, debating, dramatics, class politics, class publications, other clubs
(In early histories, lines above and below were also used. Often any hobbies in high school and college were included)
- 27. High school varsity athletics
(In early histories, any athletics whether varsity or not were included)

HEALTH AND ACTIVITIES

28. College varsity athletics
(Early histories, c.f. #27)
29. Early histories: Work record during high school and/or college
Later histories: L = legal marriage; CL = common law marriage

30						
31						
32						
33						
34						
35						
36						
37						
38						
39						
40						
41						
42						

- 30. Number of years married
 If there is more than one marriage, the entire block is divided vertically according to the number of marriages
 Count year S was living with spouse or separated for reasons other than marital trouble
 If subject never married, fill in #30-33 + 39-42 for fiancé on right hand side of block
- 31. Separation or divorce
 x = not separated, √s = separated but not divorced, √(only) or √div = divorce,
 √die = the spouse died
- 32. Age of the ♂ at the time of marriage
- 33. Age of the ♀ at the time of marriage

MARRIAGES

34. Number and ages of sons in the marriage
 If the son has died, his age if he were now living is circled, and the age at which he died is put to the right
 Adopted and stepsons are listed and identified
35. Number and ages of daughters
 Cf. #34
36. The number of months (or years) after the marriage before the first child was born
37. Marital adjustment rating
 1 = very happy
 2 = rather happy
 3 = rather unhappy
 4 = very unhappy
 Indicate if rating has changed: 2→4→3
38. Number of spontaneous and induced abortions during the marriage
 The age of ♀
 Whether abortion was spontaneous or induced
 If induced, the cost of the abortion
 Whether it was legal or illegal
 The outcome of the abortion in terms of illness and other trauma
39. Length of time the subject knew the spouse before marriage
 By "knowing" is meant mutual knowing that the persons existed
40. Length of formal engagement before marriage
 By "formal" is meant an announced engagement so that other people were aware of the impending marriage
 (Early histories show this at bottom of sheet)
41. Religion and degree of devoutness of the spouse
42. Education of the spouse
 Highest grade entered, just as for subject. Cf. #18

P.A.E. CO. N.Y. 43742

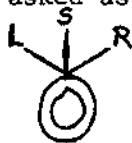

- 43. Subject's current height in feet and inches
- 44. Subject's current weight in pounds
- 45. The subject's heaviest weight ever
If less than ten pounds above his current weight, this is indicated by =
Give age at heaviest weight
- 46. This is a question for ♀'s only: the age at which the hymen was broken, and the method by which it was broken
- 47. Subject's estimation of the length of his penis in erection.
The penis is to be measured on the upper (ventral) surface from the base to the tip
Put quotes around estimated length

PHYSICAL

48. Subject's actual measurement of the length of his penis flaccid
This is to be done later and sent to the Institute via letter
For ♀'s, use of tampons or napkins
49. The actual measured length of the subject's penis in erection
Cf. #48
50. The actual measured circumference (at the widest point) of the subject's
flaccid penis
Cf. #48
51. The actual measured circumference (at the widest point) of the subject's
penis in erection.
Cf. #48
52. Does the subject's penis come to erection gradually = G, or in jerks = J ?
(This question is no longer asked)
53. The longest period of time the subject has maintained a continuous erection
54. Any history of impotence, H or Ht, with ages and circumstances
55. The frequency of morning erections
56. Whether the subject is circumcised, and if he is, his age when it was done
B = as a baby
57. If the subject is not circumcised, whether the foreskin covers the head of
the penis or not when flaccid
✓ = completely covers, ✓ + ½ or ✓✓ = covers and extends beyond the head
for half an inch, x = foreskin is carried completely retracted behind
the corona
(Not asked as of 1/59)
58. Phimosis
(Not asked as of 1/59)
59. Hypospadias
60. Amount of precoital mucus from Cowper's gland
For the ♀, precoital mucus from Bartholin secretion
✓✓ = much
✓ = average
61. For the ♂, number of testes in the scrotum
For the ♀, when most easily aroused in menstrual cycle
Bf, dur, aft, mid
62. Which testis hangs lower in the scrotal sac
63. A history of testicular swelling
Give cause (mumps, injury, other) and ages
For ♀ = width of lips
(Not asked as of 1/59)
64. Ages and length of treatment for gonorrhoea
Tell how acquired

PHYSICAL

65. Ages and length of treatment for syphilis
Tell how acquired
66. For ♀'s: is menstrual cycle regular?
For ♂'s: blood pressure obtained from inst. records
67. Length of menstrual cycle
68. Width of male subject's lips.
✓ = thin, ✓✓ = medium, ✓✓✓ = thick
(Not asked as of 1/59)
For ♀'s: how long is menstrual flow?
69. Subject's handedness
Omitted in ♀ histories
70. The side of his trousers on which subject wears his penis
(Not asked as of 1/59)
71. The angle of erection. Make sketch, e.g., 
For ♀'s: pain during menstruation
72. Position of the penis (erect) in the horizontal plane.
Whether it is straight ahead or pointed to the right or left. Straight was
recorded variously as S, F (front), Ahead.
(Not asked as of 1/59)

73. Whether the shaft of the penis curves to the left or the right or up or down
in erection
(Not asked as of 1/59)

79. Aroused by seeing burlesque shows
80. Aroused by legitimate moving pictures
81. Aroused by pictures of sexual action
82. Possession of pictures of sexual action
83. Arousal by risqué stories, "dirty" jokes, and the like
84. Arousal by erotic passages in legitimate literature
85. Erotic arousal to music
The arousal must be to the music itself and not to any association with an event surrounding the music
If the answer is positive, give the particular composers or pieces to which this applies
For the male, the determination of whether there is erotic arousal is made by asking about erection
86. Sexual affect of alcohol
If alcohol itself does not arouse the subject, but does lower his inhibitions, the proper symbol is "li"
87. Erotic arousal by social dancing
If the subject has an H history, ask about dancing with a partner of the same sex
88. Erotic arousal by motion
For the ♂, erotic arousal is determined by presence or absence of erection
Indicate type of vehicle that brings this about
89. For the ♂, the speed of erection in a heterosexual situation
If H, put in (and label) speed in H situation
For the ♀, the extent or degree of intensity of arousal in a heterosexual situation
90. Is the subject aroused by seeing himself nude in a mirror?
91. Does the subject observe his own genitalia in masturbation?
92. Is the subject aroused by seeing members of his own sex?
Give degree and ages involved
93. For the ♂ the question concerns whether he is aroused sexually by seeing another ♂ with an erection
For the ♀ the question concerns whether she is aroused by seeing the nude breasts of other ♀'s
94. Is the subject aroused by seeing buttocks of members of the same sex?
95. Does the subject bite during sexual relations?
If the subject bites gently, this is indicated as a -

SEXUAL AROUSAL

96. Has the subject been bitten during sexual relations?
Also indicate whether the subject is aroused by being bitten
97. Is the subject aroused by reading sado-masochistic literature or seeing such pictures?
98. Is the subject aroused by seeing animals in coitus?
Give ages if possible

102. Occupation of the father or other breadwinners in the home when subject was in his mid-teens
Indicate who breadwinner was
103. Parental occupation class
To be recorded at the time of the history
Often has been derived later
104. Are the parents living or dead?
✓ = living
If the mother or father is dead, the age of the subject at the time of their death is indicated. Hence F₇ indicates father died when subject was 7.
Can be spread over whole space
105. Are the parents living together, or were they living together until one died?
x indicates they were not separated or divorced
✓ indicates that they were separated or divorced, and the age of the subject at the time of the separation or divorce is indicated
The entire history of the subject's home is then shown, e.g., ✓3, M re 7-16
Parents separated when subject was 3. Subject lived with his mother, who remarried at 7, until he was 16
Can spread to right of space #104
106. How did subject's parents (or surrogates) get along with each other when subject was 16-17?
Here we are after the question of how it seemed to the subject at that time that they got along, even though in retrospect the subject might give a different answer.
107. How did the subject get along with his father (or surrogate) when he was 16-17?
Cf. #106
108. Father's, or father surrogate's, current age
If dead, give current age as if he were living, and encircle it
109. How did the subject get along with his mother (or surrogate) when he was 16-17?
Cf. #106
Ask question, "With which parent did you get along better?," and modify code on #82 and #83 accordingly
110. Mother's, or mother surrogate's, current age
Cf. #108
111. State (or country) of birth of subject's genetic father
(In histories from 1938 to 4/41 this line contained religion of parents)
(Line left blank from 4/41 until 1/42)
112. Completed education of subject's father (or surrogate)
If there were two fathers in the home when the subject was growing up, indicate the completed education of both.
113. State (or country) of birth of subject's genetic mother
114. Completed education of mother (or surrogate)
If there were two mothers in the home when the subject was growing up, indicate the completed education of both.

115. Number and ages of brothers (or surrogates)
If any of the brothers are now dead, circle what would be their current age, and to the right of the circled age give the age of the subject when they died.
If the brother was not a full brother (if he was a half brother, step brother, or even not related at all to subject), indicate this by putting a $\frac{1}{2}$ after his age.
Indicate if not raised with them.
116. Number and ages of sisters (or surrogates)
If any of the sisters are now dead, circle what would be their current age, and to the right of the circled age give the age of the subject when they died.
If the sister was not a full sister (if she was a half sister, step sister, or even not related at all to subject), indicate this by putting a $\frac{1}{2}$ after her age.
Indicate if not raised with them.
117. Quantity of ♂ playmates subject had when he was 10-11 years of age.
Use check system
118. Quantity of ♀ playmates subject played with at 10-11 years of age.
Use check system
119. Parochial or private grade school.
Indicate whether coeducational or not
(This question has rarely been asked)

124. Age and source of first knowledge of pregnancy
This is defined as knowledge that the baby grows in the mother, regardless of whether there is knowledge of how it was started or how it was delivered.
125. Age and source of first knowledge of fertilization
This must be a technical knowledge in the sense that the S must know that an egg is fertilized by a sperm.
(In many lower level subjects this question must be omitted)
126. Age and source of first knowledge of menstruation
The S does not need to know any technical details of menstruation, but only the fact that the ♀ periodically bleeds from the vagina.
127. Age and source of first knowledge of VD
The interest here is not concern over any technical details -- the most hazy concept is acceptable.
128. Age and source of first knowledge of abortion
The abortion can be either induced or spontaneous, either legal or illegal.
(This question is rarely asked any more because of the length of the sex education block and because of the difficulty of eliciting a satisfactory answer)
129. Contribution of school teachers to the S's sex education
Indicate whether the information came from high school or grade school teachers (not college), as well as the amount.
130. Childhood nudity in the home
The question is whether the parents allowed the S to run about more or less freely in the nude in the home.
Often this can be ascertained by asking whether after taking a bath the child was permitted to go to his bedroom or other part of the house in the nude.
Age of nudity is since their conscious memory (i.e., exclude infancy)
131. Nude sleeping
Partially nude sleeping does not count
✓ if always sleep nude in warm weather
(In early histories occasionally what was worn was noted)
132. Age and source of first knowledge of penis erection
This question is asked only of ♀'s
133. Age and source of first knowledge of condoms
There must be some knowledge of the use of the condom. Thinking of it as a balloon does not count.
134. Age and source of first knowledge of prostitution
Some knowledge of pay must be involved, but other than this the knowledge can be quite hazy. Merely the knowledge of "bad women" is not enough.
135. Age and source of first knowledge of H prostitution
Cf. #134 for definition
136. Age and source of first knowledge of H
Knowledge of either ♀ or ♂ H can be counted
Any type of H practice can be counted, even very incidental activity
Very often preadolescent sex play will give the answer to this question

140. Showing of genitalia
Indicate whether active or passive
Has usually been used to show only that activity existed
141. Manual touching of genitalia
Indicate whether active or passive
Cf. #140
142. Mouth-genital contact
Cf. #140
143. Insertion of objects other than penis into the ♀ genitalia
If finger, indicate
Cf. #140
144. Preadolescent coitus
Indicate whether this was real penetration or merely an attempt
Cf. #140
- #145 - #151. This is a homosexual block for ♂'s, heterosexual for ♀'s
145. Ages of prepubescent sex play with males
Indicate frequencies and number of partners
Get whether there was or not
Cf. #138
146. Preadolescent sexual contact with adult ♂'s
Cf. #139
Indicate age of the subject, ages of the partners, frequencies, techniques,
and circumstances
147. Showing of genitalia
Indicate whether active or passive
Has usually been used to show only that activity existed
148. Manual touching of genitalia
Indicate whether active or passive
Cf. #147
149. Mouth-genital contact
Indicate whether active or passive
Cf. #147
150. Insertion of objects into the urethra
Indicate whether active or passive
Cf. #147
151. Anal contacts
Indicate whether active or passive, and indicate whether this was real
penetration or merely an attempt
Cf. #147
152. Age of the subject when he first saw preadolescent ♀ genitalia
Give circumstance, e.g., sister, playmates, baby, etc.

153. Age of the subject when he first saw postpubescent ♀ genitalia
Give circumstance, e.g., mother, coitus, petting, etc.
He must have seen more than pubic hair, and the object must have been living

158. Age at development of pubic hair
159. Age at onset of sudden growth in height
160. Age at completion of height
161. For ♂'s: age at voice change
(Early histories may give age at development of breast knots)
For ♀'s: age at development of breasts
162. Subject's ages from the beginning of 9th grade to graduation from high school
If subject did not graduate from high school, his ages from the beginning
of 9th grade to the time he left school are given here
Also, whether the high school attended was public or parochial, and whether
or not it was coeducational
163. The quantity of ♂ companions when the subject was 16-17
Use check system
164. The quantity of ♀ companions when the subject was 16-17
Use check system
165. The age when the subject left home
Leaving home is interpreted as meaning that he left home permanently,
no longer considering his parents' home as his home

170. Learned of masturbation through self-discovery
171. M without climax
172. Not M because lack interest
173. Not M because of moral reasons
174. Not M because lack knowledge
175. Ages when worried over masturbation
Include here only those ages of worry during which subject was actually masturbating
Also give the reason for worry
176. Ages of masturbation without worry
Give reason for acceptance
177. This space is now blank
(Formerly it contained the ages when the subject did not masturbate)
178. The maximum number of times the subject masturbated to ejaculation in any single week
(A week is interpreted as any consecutive seven days)
179. Current frequency of masturbation to orgasm
Frequencies throughout life are then given
Can use right of squares #176-179
180. Manual masturbation (use check system)
For ♀'s this refers to clitoral masturbation (use check system)
181. Masturbation-prone without use of hands
This refers to pushing the genitalia against the bed, a pillow, or some other object for both ♂'s and ♀'s
182. Urethral insertions
Give ages and frequency by check system
183. Self-fellation
Give ages and frequency by check system
Record "try" if S tried but was not successful
Record "th" or "thk" if S has thought of doing it but has not tried
184. Other techniques, including anal insertions
Give details
185. Average time to orgasm in masturbation
Indicate if there is deliberate delay
186. Physical harm resulting from masturbation
187. Fantasy during masturbation
Indicate whether the fantasy was of ♂'s, ♀'s, SDM, etc.
Give ages and use check system

			188			
			189			
			190			
			191			

C. E. CO. N.Y.
41742

- 188. Ages of dreams to orgasm
- 189. Frequency of dreams to orgasm
- 190. Content of dreams to orgasm
Give ages and use check system
Cf. #187
- 191. Content of sexual dreams without orgasm
Give ages and use check system
Cf. #187

194. The number of premarital petting partners between high school graduation and first marriage
Cf. #193

Use check system for squares 195-204

195. Hugging
196. Kissing
197. Tongue kissing
198. ♂ hand on the ♀ nude breast
199. ♂ mouth on ♀ breast
200. ♂ hand on ♀ nude genitalia
201. ♀ hand on ♂ nude genitalia
202. ♂ mouth on ♀ genitalia
Note whether or not there was orgasm for the subject
203. ♀ mouth on ♂ genitalia
Note whether or not there was orgasm for the subject
204. Apposition of nude genitalia without penetration
205. Ages involved and frequency of orgasm for the ♂
206. Ages involved and frequency of orgasm for the ♀
207. Did the subject masturbate afterwards as the result of being aroused in the petting?
Use check system
208. Was there an ache in the testes or in the lower pelvic area as the result of petting?
Check question for both ♂'s and ♀'s
209. Did petting leave subject tense, nervous, and/or upset?
Use check system

HOBBIES and MISC.

215. **Drinking**
 ✓equals heavy but not alcoholic
 ✓equals alcoholic
216. **Drugs**
 If more than -, give asterisk and go to bottom of page
 Include also benzedrine and the barbiturates, and so label
217. **Marijuana**
 If more than -, give asterisk and go to bottom of page
218. **Hunting**
 Same degree as #210
219. **Fishing**
 Same degree as #210
220. **Reading**
221. **Sewing**
 Ask of obvious ♂H and ♀'s
 This question is concerned with interest, rather than amount of activity
222. **Cooking**
 Ask of everyone
 See #221 for point of question
223. **Housework**
 Ask of obvious ♂H and ♀'s
 See #221 for point of question
224. **Music**
 Differentiate a and p
 Popular music is rated as equivalent with classical
225. **Athletics**
 Differentiate a and p
226. **Other interests (hobbies, collections, recreations)**
 This is an open-ended question
227. **Has the subject been observed in coitus by others?**
 This must be actual observation
 Record circumstances and subject's reactions
 Swap partners noted here if occurred
228. **Has the subject ever played strip poker?**
 Record ages, circumstances, and partners
 Record if it led to C
229. **Has the subject ever seen obscene movies?**
 Record ages and subject's reaction, including whether subject was aroused or not
230. **Has the subject ever seen others in coitus?**
 Record ages and frequencies

HOBBIES and MISC.

231. Has the subject ever seen his parents in coitus?
Record ages and frequencies
232. If #230 and/or #231 are positive, record the degree of the subject's arousal
If #230 and #231 are negative, then a 0 is placed here
233. Has the subject ever seen a live sex show?
Record frequencies by check system, ages, and reaction
Record what the show consisted of

					234		
					235	236	
					237		
					238		
					239		
					240		
					241		
					242		
					243		

Items #234-#239 deal with restraints on Cpm

- 234. Moral objection to Cpm
Often the S will give a verbal answer which is obviously not the true one
In this case, record what the S says and then in brackets what the E believes
- 235. Lack of opportunity for Cpm
- 236. Lack of interest in Cpm
If factor is shyness, socially inept, etc., write in below #236
Satiation is the equivalent of lack of interest
- 237. Fear of pregnancy
- 238. Fear of VD

1330 43742

239. Fear of public opinion
"Public opinion" is interpreted widely here. Fear that people will find out about it, even if only parents, is still counted
240. Desire to marry a virgin
If person is or has been married, the question applies to the period immediately before the first marriage
241. Desire for marriage
If the person is or has been married, the question applies to his or her desire for marriage at the time of the first marriage.
Very often the marriage was forced or there were other factors which led to the marriage other than a simple desire for it.
242. Desire for children
If the person is or has been married, the question applies to the desire for children at the time of the first marriage.
The number of children desired is recorded, as well as the strength of the desire.
243. Intent to have Cpm
If the person has never had Cpm, the question applies to whether he does or does not intend to have it.
If the person has had Cpm, the question applies to whether he does or does not intend to have more.
If the person is or has been married, the recording is automatic:
an x if he had never had Cpm, a ✓ if he had.

				251		
				252		

K & L CO., N. Y.
47742

- 244. Age at first postpubertal intercourse, regardless of whether it is premarital or marital
(On early histories, right hand side sometimes gives age of first prepubertal intercourse)
- 245. Lapse of time between marriage and first marital coitus
If not on wedding night, give explanation
#1 = on marriage day
- 246. Type of partner at first intercourse; age of partner, unless Pr
If Pr, give amount paid
C = Companion
Wf = Wife
Hsb = Husband
P or Pr = Prostitute
(On early histories this was recorded one line below #244)

247. Length of time after intromission for first ejaclation in first coitus
Check system often used
248. Was the ♀ a virgin at the ♂'s first coitus?
This is an automatic ✓ for ♀ histories
249. Did the ♀ bleed at the first coitus?
250. Did the ♂ enjoy this first coitus?
Rarely asked of ♀ 's
251. Did the ♀ enjoy this first coitus?
Rarely asked of ♂'s
252. Length of time before first climax (in ♀ histories)
Either by the number of experiences before climax, length of time in units of
weeks, months, or years, or ♀'s age

N & D CO. N. Y.

- 253. Per cent climax in Cpm (in ♀ histories) after climax began
- 254. Ages of subject's premarital coitus
 This block can be divided vertically through #259 if there are postmarital periods.
 Secure ages for premarital coitus on the left and postmarital history on the right.
- 255. Frequencies of premarital coitus (and Cd)
 Cf. #254
- 256. Total number of premarital coital (and Cd) partners
 Cf. #254
- 257. Total number of premarital coital (and Cd) companions
 Cf. #254

258. Total number of premarital coital (and Cd) partners who were prostitutes
Cf. #254
259. Duration and frequencies of premarital coitus with fiancé or subsequent spouse
or spouses
Cf. #254
260. Number of virgins in lifetime
Include all coitus
261. The age of the oldest nonmarital partner and the age of the youngest nonmarital
partner
In parentheses following this is the age of the youngest nonmarital partner
since the subject was eighteen years of age.
262. The current age preference in coitus for the subject
If age range is wide, check subject closely
Be sure this is age preference and not age acceptance
263. The number or the percentage of nonmarital coital partners who were married
at the time of the intercourse
264. A record of the relatives with whom subject had intercourse
Give first cousins and in-laws, as well as any closer relatives
265. The age of the ♂ at the time of a nonmarital pregnancy
This block is to be divided vertically for each nonmarital pregnancy
Often #265-#269 has been run across horizontally
266. The age of the ♀ at the time of a nonmarital pregnancy
267. The outcome of the nonmarital pregnancy, and agent, if an Ab
268. If an induced abortion, the amount paid
269. A record of difficulties arising from Ab, including physical, psychological,
social, and legal
The next three blank squares can be used to describe other circumstances
surrounding the pregnancy and outcome
270. Does the subject have regret over premarital coitus?
✓ = no regret
± = little regret
- = some regret
x = much regret
271. Amount of premarital intercourse had in the nude
272. A record of whether premarital intercourse was preferred in the nude
273. The places where premarital intercourse occurred
Check routinely: out, car, ♀, ♂, chrch, prk, beh, boat, htl, mtl

Erratum

Entry 270 on page 56 is reversed and incorrect. It should appear as follows. –TGA November 29, 2006

270. Does the subject have regret over premarital coitus?

X	=	no regret
-	=	little regret
±	=	some regret
√	=	much regret

- 274. Ages of subject at intercourse with prostitutes
 A Pr contact is defined as cash payment for any type of sex relationship
 If never paid, right part of square refers to whether ever in a house of prostitution
- 275. Total number of prostitutes
- 276. Frequencies of intercourse with prostitutes
- 277. Amount paid
 Give range or average
- 278. Amount of GOa and GOp
 Check system has been used for GOp unless otherwise indicated

279. Preference of C with Pr or nonPr

✓ = prefer Pr

x = prefer nonPr

Give reasons for

280. Ages at which subject was paid for intercourse, frequencies, and prices
If extensive, go to Pr code

					312	

286. This block covers marriage data and can be divided vertically for multiple marriages
♂ = husband
♀ = wife
If S has not been married, this block refers to premarital coitus.
Frequency of marital coitus, not orgasms. In case of multiple orgasm by ♂, record coital frequency and follow it with the multiplication factor, e.g., 2/ (x2)
Do not get the frequency for the first few months of the marriage unless the marriage is a very short one.
Try to establish the frequency for the first two years and the last two years, with a grade-down or a grade-up, as well as sudden breaks or long separations.
Include Cm pet to cli

287. Maximum frequency of marital coitus in any single week
If S = single, maximum frequency of premarital coitus in any single week
A week is considered as seven consecutive days
Count the honeymoon period
288. Length of precoital petting
Try to give time in actual minutes
Give average or customary range
If the check system is used, ✓ = long time, - = short time
- #289-296 are similar to #196-203
289. Kissing in the precoital play
290. Tongue kissing
291. ♂ hand on ♀ breast
292. ♂ mouth on ♀ breast
293. ♂ hand on ♀ genitalia
294. ♀ hand on ♂ genitalia
295. ♂ mouth on ♀ genitalia
Note if led to cli
296. ♀ mouth on ♂ genitalia
Note if led to cli
297. Length of time between intromission and ejaculation for the ♂ in coitus
Add "delay" if ♂ deliberately delays ej
298. Number of ejaculations for the ♂ per each coitus
In parentheses give maximum number of ejaculations in any one coitus.
To have multiple ejaculations the ♂ must be in continuous erection or the two
(or more) ejaculations must be within twenty minutes.
299. ♂ above in coitus
Use check system
300. Female above in coitus
Use check system
301. Coitus on the side, facing each other
Use check system
302. Coitus sitting
Use check system
Either party may be sitting
303. Vaginal coitus from the rear (dog fashion)
Use check system
304. Coitus standing
Use check system

305. Percentage of orgasm for the ♀
In parentheses give the greatest number of orgasms for the ♀ in any one intercourse
Indicate changes, e.g., 20 (-30), 60 (-35), 100 (-d.)
If the ♂ is unmarried, this would be an attempt to average the percentage of orgasm for all Cpm partners
306. Anal intercourse
Attempt without penetration = try
307. Does intercourse occur in the nude or with clothing?
✓ = nude; x = clothes
Use check system
308. Preference of the subject for nudity or clothing
Use same check system
309. In a few histories a record of coitus during menstruation was made here
This question has not been asked routinely
310. ♂ preference for the light or the dark in coitus
✓ = ♂ prefers light, x = ♂ prefers dark
311. ♀ preference for light or dark
Use same check system
312. Ever to clinician, M.D., pastor, etc. because of sex problem
Began this question as of 1/59

313. Were condoms used in coitus?
 Ask for each type of coitus (Cpm, Cm, Cx, Cd)
314. Unplanned pregnancies and why they occurred (careless, or what type contraception failed)
 Also any history of sterility, operative or not
315. Where were condoms purchased?
 D = drugstore
 (This question no longer asked)
316. Breakage of condoms
 √ = break often
 Also indicate whether a pregnancy resulted
 (This question no longer asked)

317. Were condoms tested before use?
(This question no longer asked)
318. Use of diaphragm for each type of coitus
Cf. #313
319. Who fitted the diaphragm? Its size
Indicate to right of square if pregnancy resulted
(This question no longer asked)
320. Withdrawal as means of contraception
Cf. #313
321. Other types of contraception (rhythm, suppos, jelly)
Label each if it was employed
Cf. #313
322. Use of douche
Use check system as usual, but can add:
c = use of douche for contraception
s = use of douche for sanitation
Cf. #313

K & S CO., N.Y. 47782

- 323. Ages of postpubescent homosexual contact
 (If there are more than four partners or more than 25 experiences, this entire block [except #330-#332] is left blank and a second page is used)
- 324. Age of first partner and circumstances of the event
- 325. Total number of partners and their ages
- 326. Frequency of homosexual relations by age
- 327. Techniques used
- 328. How much did the subject enjoy the homosexual experience?
 Use check system

329. Pay for H
Indicate passive or active
If not indicated, assume passive
330. Does the subject plan to ever have homosexual relations?
(If he has had them, does he plan to ever have more?)
331. Subject's attitude toward homosexual behavior
A = approve
N = neutral
D = disapprove
Indicate subject's attitudes for both ♂ and ♀ homosexuality separately, and
to the right indicate whether he would keep friends whom he knew had a
homosexual history
Example: D ♂, N ♀, x kp ♂, kp ♀
332. Frequency of homosexual approaches
Use check system
Indicate where these occurred

SEX OFFENSE

342. Ht pedophilia. Patting. ♀ aged 15 or less. Get age of S at time.
Ht pedophilia. Coitus. ♀ aged 15 or less. Get age of S at time.
343. Ht peeping
Ages, frequency, ever trouble
(Must be deliberate, not accidental, peeping)
344. Tattoo
345. I.Q. or other test scores

KINSEY INTERVIEW QUESTIONS

AGE AT INTERVIEW

AGE AT INTERVIEW

"How old are you?"

YEAR OF BIRTH

"In what year were you born?"

EDUCATION

"How far did you go (have you gone) in school?"

PRIMARY OCCUPATION

"What jobs or occupations have you had that lasted at least a year?"

RESPONDENT'S CURRENT ECONOMIC STATUS

"How would you rate yourself now financially?" e.g., "are ends meeting, but just barely? Are you getting along comfortably?" Additional probe questions were used if necessary and inquiry made as to annual income. Economic status was calculated from the answers.

PRIMARY OCCUPATION OF SPOUSE

"What is you (husband's, wife's) occupation?"

INCIDENCE OF MILITARY SERVICE

"Have you been in military service or the Merchant Marine?"

CURRENT RELIGION

"What is your religion?"

CURRENT DEGREE OF RELIGIOUS DEVOUTNESS

"How often do you go to (Church, Synagogue)?"

PRIMARY REGION OF RESIDENCE AS ADULT

"Where were you born? You lived there up to what age? Then where did you go?"

RURAL-URBAN CLASSIFICATION AS ADULT

"Have you ever lived on a farm or ranch for one full year or longer?"

Note: The farm or ranch must have been operational--rural nonfarm residence was not considered rural.

WITH WHOM RESPONDENT LIVED AT AGES 3-5

"After the (death, separation, divorce) with whom did you live?"
Asked only if genetic parents' marriage terminated before age 18.

WITH WHOM RESPONDENT LIVED AT AGES 9-11

"After the (death, separation, divorce) with whom did you live?"
Asked only if genetic parents' marriage terminated before age 18.

WITH WHOM RESPONDENT LIVED AT AGES 15-17

"After the (death, separation, divorce) with whom did you live?"
Asked only if genetic parents' marriage terminated before age 18.

BIRTHPLACE OF GENETIC FATHER

"Where was your father born?"

BIRTHPLACE OF GENETIC MOTHER

"Where was your mother born?"

FATHER'S EDUCATION

"How far did your (father, stepfather, etc.) go in school?"

MOTHER'S EDUCATION

"How far did your (mother, stepmother, etc.) go in school?"

GENETIC FATHER'S AGE AT RESPONDENT'S BIRTH

None. Obtained by subtracting respondent's age from father's age if living.

GENETIC MOTHER'S AGE AT RESPONDENT'S BIRTH

None. Obtained by subtracting respondent's age from mother's age if living.

PRIMARY OCCUPATION OF FATHER

"During your middle teens, what did your father do for a living?"

PARENTAL FORMER ECONOMIC STATUS

"When you were 14 to 17 years old, how were your parents doing financially?"

INTERPARENTAL RELATIONSHIP AT RESPONDENT'S AGES 14-17

"When you were 14 to 17 years old, how did you your (parents, father and step-mother, mother and stepfather, etc.) get along together?"

RELATIONSHIP WITH FATHER AT AGES 14-17

"When you were 14 to 17, how did you get along with your (father, stepfather, etc.)?"

RELATIONSHIP WITH MOTHER AT AGES 14-17

"When you were 14 to 17, how did you get along with your (mother, stepmother, etc.)?"

PARENT WITH-WHOM BEST RELATIONSHIP

None necessary unless respondent gave same responses for relationships with father and mother.

RESPONDENT'S AGE WHEN GENETIC PARENTS SEPARATED OR DIVORCED

"How old were you when they (separated, divorced):"

RESPONDENT'S AGE AT GENETIC FATHER'S DEATH

"How old were you when your father died?"

RESPONDENT'S AGE AT GENETIC MOTHER'S DEATH

"How old were you when your mother died?"

AGE RESPONDENT LEFT PARENTAL HOME

"How old were you when you left home for good, or when you felt you were really independent and on your own?"

NUMBER OF SIBLINGS

None. Data obtained by adding numbers of brothers and sisters.

NUMBER OF BROTHERS

"How many brothers did you have?" "How old (is he, are they, would he be now, would they be now)?"

NUMBER OF SISTERS

"How many sisters did you have?" "How old (is she, are they, would she be now, would they be now)?"

TWIN STATUS

None. Information derived from questions as to number and ages of siblings.

MALE COMPANIONS AT AGE 10-11

"Back when you were 10 or 11, how many boy playmates did you have--none, few, some, or many?"

FEMALE COMPANIONS AT AGE 10-11

"Back when you were 10 or 11, how many girl playmates did you have--none, few, some, or many?"

MALE COMPANIONS AT AGE 16-17

"When you were 16 or 17 how many male friends and companions did you have--none, few, some or many?"

FEMALE COMPANIONS AT AGE 16-17

"When you were 16 or 17 how many female friends and companions did you have--none, few, some or many?"

FRATERNITY-SORORITY MEMBERSHIP

"While you were in college did you join a social (fraternity, sorority)?"

HIGH SCHOOL AND COLLEGE ATHLETIC PARTICIPATION

"During high school, what varsity teams were you on?" and "During college, what varsity teams were you on?" Unfortunately, at some point a number of interviewers ceased using the word varsity and hence, intramural teams were included.

CURRENT FREQUENCY OF ATTENDING MOTION PICTURES

"How often do you go to the movies?"

CURRENT FREQUENCY OF DANCING

"How often do you go dancing?"

CURRENT FREQUENCY OF CARD PLAYING

"How often do you play cards?"

INCIDENCE OF PLAYING STRIP POKER

"Have you played strip poker with both males and females?" If the response was affirmative a second question was asked. "Did it lead to petting or intercourse?"

CURRENT FREQUENCY OF GAMBLING

"Do you gamble on cards, races, or any game?" and, if the reply was affirmative, "In terms of money, would you call yourself a light, moderate, or heavy gambler?"

CURRENT FREQUENCY OF SMOKING

"How much do you smoke?"

"Much" was defined as 20 cigarettes per day or the equivalent in cigars or tobacco.

CURRENT FREQUENCY OF DRINKING

"How much do you drink?"

"Much" was defined as more than one alcoholic drink per day.

USE OF MARIJUANA

"Have you smoked marijuana?"

USE OF DRUGS OTHER THAN MARIJUANA

"Not counting marijuana, have you tried or used other drugs or narcotics?"

FREQUENCY OF CHILDHOOD NUDITY IN HOME

"Back when you were a child, could you go around the house naked or did the grownups always make you wear clothes?"

FREQUENCY OF SLEEPING NUDE

"In warm weather how often do you sleep nude?"

INTERVIEWER

No question

AGE AT PUBERTY

No question. The age was calculated from responses to a series of questions concerning advent of pubic hair, breast development, first ejaculation, menarche, voice change, and growth spurt.

AGE AT FIRST EJACULATION

"How old were you the first time you were able to ejaculate, that is, have something come out of the penis when you came to climax?"

SOURCE OF FIRST EJACULATION

"What made you ejaculate that first time?"

AGE AT MENARCHE

"How old were you when you started menstruating?"

AGE AT BEGINNING OF PUBIC HAIR

"How old were you when hair began to grow around the (penis, sex organ)?"

AGE AT ONSET OF SUDDEN GROWTH IN HEIGHT

"How old were you when you started shooting up in height?"

AGE AT COMPLETION OF GROWTH IN HEIGHT

"How old were you when you stopped growing in height?"

AGE AT ONSET OF VOICE CHANGE

"How old were you when your voice began to change or crack?"

AGE AT BEGINNING OF BREAST DEVELOPMENT

"How old were you when you first noticed your breasts were beginning to develop and grow larger?"

HEALTH WHEN A CHILD

"How was your health when you were a child?"

CURRENT HEALTH

"In this past year how has your health been?"

SERIOUS PHYSICAL DEFECTS

No question. The defect was either noticed by the interviewer or was mentioned in answering questions as to health.

INCIDENCE OF GONORRHEA AND SYPHILIS

"Have you had syphilis?" and "Have you had gonorrhea; the clap?"

HEIGHT

"How tall are you without shoes?"

WEIGHT

"How much do you weigh?" or "What is your weight?"

HANDEDNESS

"Are you right or left handed?"

ESTIMATED LENGTH OF ERECT PENIS

"How long is your penis when it is hard, measuring on the top side from your belly out to the tip?"

MEASURED LENGTH OF ERECT PENIS

No question. Respondents were given cards to fill out and return in preaddressed stamped envelopes, and were instructed to measure on the top surface from belly to tip of penis.

MEASURED LENGTH OF FLACCID PENIS

No question. Respondents were given cards to fill out and return in preaddressed stamped envelopes.

MEASURED CIRCUMFERENCE OF FLACCID PENIS

No question. Respondents were given cards to fill out and return in preaddressed stamped envelopes, and were instructed to measure at the point of maximum circumference.

MEASURED CIRCUMFERENCE OF ERECT PENIS

No question. Respondents were given cards to fill out and return in preaddressed stamped envelopes, and were instructed to measure at the point of maximum circumference.

ANGLE OF PENILE ERECTION

"If you were standing up and you had an erection, at what angle would the penis stick out from the body? Would it be like this? Or this?" etc. Using a vertical finger to represent the body and a finger or pen to represent the penis.

LATERAL INCLINATION OF ERECT PENIS

"If you were standing up and had an erection, if you looked down at the penis, would it be pointing straight ahead or pointed somewhat to the right or left?"

CURVATURE OF PENIS

"When you have an erection, is the shaft of the penis straight or does it curve up, down, right, or left?"

DURATION OF LONGEST CONTINUOUS PENILE ERECTION DURING SOCIOSEXUAL ACTIVITY

"What is the longest time your penis stayed continuously hard during sexual activity with someone?"

INCIDENCE OF ERECTILE IMPOTENCE IN COITUS OR ATTEMPTED COITUS

"Have you ever had trouble getting or keeping an erection?" "Tell me about it." (probe for frequency and ages).
Incidental impotence is defined as (1) justifiable impotence due to drunkenness, fatigue, interruption, etc. and (2) impotence which occurs rarely or infrequently

FREQUENCY OF MORNING PENILE ERECTION

"How often do you wake up in the morning with an erection?"

AGE AT CIRCUMCISION

"Are you circumcised?" If affirmative reply: "How old were you when you were circumcised?"

DEGREE OF FORESKIN COVERAGE OF HEAD OF PENIS

"How much of the head of the penis does the foreskin cover?" If reply is "all", we asked: "Does some skin stick out beyond the head?"

DEGREE OF PHIMOSIS

"Do you have any trouble pulling the foreskin back behind the head?" If affirmative reply: "How much trouble?"

LOCATION OF URETHRAL MEATUS ON PENIS

"Is the opening of the penis out at the tip, like this (gesture)? or further down on the head (gesture)? or here (gesture)? or on the shaft of the penis (gesture)?"

POSITION OF PENIS IN TROUSERS

"On which side of the central seam in your pants do you keep your penis?"

AMOUNT OF 'PRE-EJACULATORY SECRETION' (COWPER'S GLAND SECRETION)

"When you are sexually excited, but before you come to climax, how much slippery fluid comes out of the penis: one drop? a couple? enough to wet the whole head? enough to drip?"

NUMBER OF TESTES IN SCROTUM

"Do you have two (testicles, balls)?"

WHICH TESTIS LOWER IN SCROTUM

"Which (testicle, ball) hangs lower?"

TYPE OF TESTICULAR PATHOLOGY

"Have you ever had your (testicles, balls) swell up or have something wrong with them?" If affirmative reply, probe questions were used.

REGULARITY OF MENSTRUAL CYCLE

"How regular are your periods?"

AVERAGE LENGTH OF MENSTRUAL CYCLE

"How long is it between your periods?"

AVERAGE LENGTH OF MENSTRUAL FLOW

"When you have a period, how many days do you usually flow?"

AMOUNT OF PAIN DURING MENSES

"During your period how much pain is there?"

DURATION OF MENSTRUAL PAIN

"How long does the pain last?"

USE OF TAMPONS

"Do you use napkins or tampons?"

AGE AT ONSET OF MENOPAUSE

"How old were you when you began (menopause, change of life)--began having irregular periods, hot flashes, flooding and things like that?"

AGE AT COMPLETION OF MENOPAUSE

"How old were you when you finished (menopause, change of life) and stopped menstruating?"

CAUSE OF MENOPAUSE

"What caused menopause?"

AMOUNT OF VAGINAL LUBRICATION

"When you are sexually excited, does the vagina become slightly wet, moderately wet, or enough to wet the bed?"

PERIODICITY OF FEMALE SEXUAL RESPONSE

"Do you notice any particular time of the month when it is easier for you to get sexually excited?"

AGE HYMEN BROKEN

"How old were you when your (hymen, maidenhead) was broken?" The question was omitted and the age automatically recorded if the respondent reported bleeding at first coitus.

CAUSE OF HYMEN BREAKAGE

"How was it broken?"

MAIN SOURCE OF RESPONDENT'S SEX EDUCATION

"What would you say was the main source of your early knowledge about sex?" This question followed a series of questions as to age and source of knowledge of specific items.

CONTRIBUTION OF FATHER TO RESPONDENT'S SEX EDUCATION

"How much sex information did your father give you?"

CONTRIBUTION OF MOTHER TO RESPONDENT'S SEX EDUCATION

"How much sex information did your mother give you?"

CONTRIBUTION OF GRADE SCHOOL TEACHERS TO RESPONDENT'S SEXUAL KNOWLEDGE

"How much sexual information did your grade school teachers give you?"

CONTRIBUTION OF HIGH SCHOOL TEACHERS TO RESPONDENT'S SEXUAL KNOWLEDGE

"How much sexual information did your high school teachers give you?"

AGE AT FIRST KNOWLEDGE OF COITUS

"How old were you when you first learned of sexual intercourse--realized that the penis went in the vagina?"

SOURCE OF FIRST KNOWLEDGE OF COITUS

"How did you first learn about it?"

AGE AT FIRST KNOWLEDGE OF PREGNANCY

"How old were you when you first learned the baby grows inside the mother?"

SOURCE OF FIRST KNOWLEDGE OF PREGNANCY

"How did you first learn about it?"

AGE AT FIRST KNOWLEDGE OF FERTILIZATION

"How old were you when you first learned that a man has sperms and a woman has an egg, and that the sperm and egg must come together to make a baby?"

SOURCE OF FIRST KNOWLEDGE OF FERTILIZATION

"How did you first learn about it?"

AGE AT FIRST KNOWLEDGE OF MENSTRUATION

"How old were you when you first learned of menstruation--that a woman bleeds once a month?"

SOURCE OF FIRST KNOWLEDGE OF MENSTRUATION

"How did you first learn about it?"

AGE AT FIRST KNOWLEDGE OF VENEREAL DISEASE

"How old were you when you first learned you could catch some disease through sexual intercourse?"

SOURCE OF FIRST KNOWLEDGE OF VENEREAL DISEASE

"How did you first learn about it?"

AGE AT FIRST KNOWLEDGE OF ABORTION

"How old were you when you first learned of abortion or miscarriage--that a woman could lose a baby before it was born either accidentally or on purpose?"

SOURCE OF FIRST KNOWLEDGE OF ABORTION

"How did you first learn about it?"

AGE AT FIRST KNOWLEDGE OF FEMALE PROSTITUTION

"How old were you when you first learned some women would have sexual intercourse for money?"

SOURCE OF FIRST KNOWLEDGE OF FEMALE PROSTITUTION

"How did you first learn about it?"

AGE AT FIRST KNOWLEDGE OF CONDOMS

"How old were you when you first learned of rubbers or condoms?"

SOURCE OF FIRST KNOWLEDGE OF CONDOMS

"How did you first learn about them?"

AGE AT FIRST KNOWLEDGE OF PENILE ERECTION

"How old were you the first time you learned the penis got longer and hard?"

SOURCE OF FIRST KNOWLEDGE OF PENILE ERECTION

"How did you first learn of it?"

AGE FIRST SAW GENITALS OF PREPUBESCENT OF OPPOSITE SEX

"How old were you the first time you saw the sex organ of a (boy,girl) baby or child--someone too young to have hair around the sex organ?"

SOURCE OF FIRST SIGHT OF GENITALS OF PREPUBESCENT OF OPPOSITE SEX

"How did you happen to see it?"

AGE FIRST SAW GENITALS OF ADULT OF OPPOSITE SEX

"How old were you the first time you saw the sex organ of an adult (male, female) someone old enough to have hair around the sex organ?"

SOURCE OF FIRST SIGHT OF GENITALS OF ADULT OF OPPOSITE SEX

"How did you happen to see it?"

SOURCE OF FIRST PREPUBERTAL ORGASM

"Back before you were (age at puberty) did you have some feeling of coming to climax only nothing came out of the penis?" If affirmative response a second question was asked: "How did it happen?"

AGE AT FIRST PREPUBERTAL MASTURBATION

(Asked after having dealt with postpubertal masturbation.) "Back before you were (age at puberty) was there self masturbation? How old were you when it began?"

AGE AT FIRST PREPUBERTAL ORGASM IN MASTURBATION

(After having ascertained the event) "How old were you the first time?"

INCIDENCE OF PREPUBERTAL HETEROSEXUAL ACTIVITY

"Back before you were (age at puberty), how old were you the first time there was any sex play with (girls, boys)--showing or touching the sex organs?"

AGE AT FIRST PREPUBERTAL ORGASM IN HETEROSEXUAL CONTACT

(After having ascertained the event) "How old were you the first time?"

NUMBER OF YEARS IN WHICH PREPUBERTAL HETEROSEXUAL ACTIVITY OCCURRED

None. Calculated from data on ages when such activity occurred.

INCIDENCE OF PREPUBERTAL HETEROSEXUAL TECHNIQUES

"Was there showing sex organs? Touching sex organs? Putting a finger or object in the vagina? Mouth on sex organs? Putting the penis in the vagina?"
This tabulation is of the most advanced technique experienced. Thus, taking white college-educated males as an example, the 4.4% who had inserted something into the vagina had also touched and seen female genitalia, but had not experienced oral-genital or coital contact. However, this is not a Guttman scale since oral-genital contact does not necessarily mean insertions or oral-genital contact had been made.

INCIDENCE OF PREPUBERTAL HETEROSEXUAL ORAL -GENITAL CONTACT

"Was there mouth on the sex organs? (His, her)mouth on your's? Your mouth on (his, hers)?"

INCIDENCE OF PREPUBERTAL HOMOSEXUAL ACTIVITY

"Back before you were (age at puberty), how old were you the first time there was any sex play with other (boys, girls)-- showing or touching sex organs?"

INCIDENCE OF PREPUBERTAL HETEROSEXUAL COITUS

"Was the penis put in the vagina?" "Was an attempt made?"

AGE AT FIRST PREPUBERTAL ORGASM IN HOMOSEXUAL CONTACT

(After having ascertained the event) "How old were you the first time?"

NUMBER OF YEARS IN WHICH PREPUBERTAL HOMOSEXUAL ACTIVITY OCCURRED

None. Calculated from data on ages whensuch activity occurred.

INCIDENCE OF PREPUBERTAL HOMOSEXUAL TECHNIQUES

"Was there (technique described)?"

This tabulation is of the most advanced technique experienced. It is not a Guttman scale since, for example, oral-genital contact does not pre-suppose insertion of objects or body frictation.

INCIDENCE OF PREPUBERTAL HOMOSEXUAL ORAL-GENITAL CONTACT

"Was there mouth on the sex organs? (His, her)

INCIDENCE OF PREPUBERTAL HOMOSEXUAL ANAL COITUS

"Was the penis put in the anus? His penis in your anus? Your penis in his anus?"

INCIDENCE OF PREPUBERTAL SEXUAL ACTIVITY WITH ADULT MALE

"Back before you were (age at puberty) did you have an adult male--that is one old enough to have hair around his penis--approach you for sex or have sex with you?" If affirmative reply, several follow-up questions were asked as to specifics.

AGE FIRST PREPUBERTAL SEXUAL ACTIVITY WITH ADULT MALE

"How old were you the first time?"

AGE OF FIRST ADULT MALE WITH WHOM RESPONDENT HAD PREPUBERTAL SEXUAL ACTIVITY

"How old was he?"

RELATION OF RESPONDENT TO FIRST ADULT MALE WITH WHOM HAD PREPUBERTAL SEXUAL ACTIVITY

"Was he a stranger, acquaintance, friend, relative?"

TYPE OF FIRST PREPUBERTAL SEXUAL ACTIVITY WITH ADULT MALE

"What happened?"

FREQUENCY OF PREPUBERTAL SEXUAL ACTIVITY WITH FIRST ADULT MALE WITH WHOM HAD SUCH ACTIVITY

"How often were there sexual experiences with him?"

RESPONSE OF RESPONDENT TO FIRST PREPUBERTAL SEXUAL ACTIVITY WITH ADULT MALE

"How did you feel about it at the time? Were you (several examples given)?"

SOURCE OF FIRST KNOWLEDGE OF MASTURBATION

"How did you first learn of masturbation?" (Often the above possibilities were enumerated.) (Asked only of those who masturbated with or without orgasm.)

AGE AT FIRST POSTPUBERTAL MASTURBATION RESULTING IN ORGASM

"How old were you the first time you came to climax by self-masturbation?"
Response checked against age at puberty.

AGE-SPECIFIC INCIDENCE OF MASTURBATION TO ORGASM AMONG THE NEVER-MARRIED

None. Figures obtained from age and frequency data.

AGE-SPECIFIC INCIDENCE OF MASTURBATION TO ORGASM AMONG THE MARRIED

None. Figures obtained from age and frequency data.

AGE-SPECIFIC INCIDENCE OF MASTURBATION TO ORGASM AMONG THE WIDOWED, SEPARATED,
OR DIVORCED

None. Figures obtained from age and frequency data.

FREQUENCY (MEAN) PER WEEK OF MASTURBATION TO ORGASM AMONG THE NEVER-MARRIED

"How often was there masturbation from (age at first masturbation) to (age at some salient point in life)?" Question repeated until pre-marital life span covered.

FREQUENCY (MEAN) PER WEEK OF MASTURBATION TO ORGASM AMONG THE MARRIED

"How often was there masturbation from (age at marriage) to (some salient point in life)?" Question repeated until length of marriage covered.

FREQUENCY (MEAN) PER WEEK OF MASTURBATION TO ORGASM AMONG THE WIDOWED, SEPARATED, OR DIVORCED

"How often was there masturbation from the end of the marriage to (some salient point in life)?" Question repeated until postmarital life covered.

MAXIMUM FREQUENCY OF MASTURBATION IN ANY ONE SEVEN DAY PERIOD

"What was the largest number of times there was masturbation in any one week?"

CURRENT MALE MASTURBATORY TECHNIQUES: MANUAL STIMULATION OF PENIS

"How much of the masturbation is by using the hand on the penis?" "None" means no attempt made. "Try" means an attempt or attempts made, but no orgasm resulted. "Rare" means once or twice.

CURRENT MALE MASTURBATORY TECHNIQUES: PELVIC THRUSTS WHILE PRONE

"How much of the masturbation is by lying face down and making movements on a bed or pillow without using the hands?"

CURRENT MALE MASTURBATORY TECHNIQUES: URETHRAL INSERTION

"How much of the masturbation is by inserting something into the penis?"

CURRENT MALE MASTURBATORY TECHNIQUES: SELF-FELLATION

"Were you able to put your mouth on your penis?" If affirmative reply, "How often do you masturbate this way?" If negative reply, "Did you try?" If negative reply to the previous question, "Did you think about trying?"

CURRENT MALE MASTURBATORY TECHNIQUES: USE OF DEVICES

"What other ways of masturbating do you use?" (Examples often cited.)

CURRENT FEMALE MASTURBATORY TECHNIQUES: CLITORAL STIMULATION

"How much of the masturbation is by stimulating the clitoris?"

CURRENT FEMALE MASTURBATORY TECHNIQUES: VAGINAL INSERTION

"How much of the masturbation is by inserting a finger or something into the vagina?"

CURRENT FEMALE MASTURBATORY TECHNIQUES: CLITORAL STIMULATION PLUS VAGINAL INSERTION

"How much of the masturbation is by inserting a finger or something into the vagina and stimulating the clitoris at the same time?"

CURRENT FEMALE MASTURBATORY TECHNIQUES: PELVIC THRUSTS WHILE PRONE

"How much of the masturbation is by lying face down and making movements on a bed or pillow without using the hands?"

CURRENT FEMALE MASTURBATORY TECHNIQUES: CROSSED LEGS

"How much of the masturbation is by crossing the legs and squeezing the thighs together?"

CURRENT FEMALE MASTURBATORY TECHNIQUES: BREAST STIMULATION

"How much of the masturbation is by only stimulating the breasts?"

CURRENT FEMALE MASTURBATORY TECHNIQUES: GENERALIZED VULVAR RUBBING

"How much of the masturbation is by simply rubbing the whole genital area?"

CURRENT FEMALE MASTURBATORY TECHNIQUES: FANTASY ONLY

"How much of the masturbation is purely by thinking about sex, without touching yourself?"

CURRENT FEMALE MASTURBATORY TECHNIQUES: OTHER TECHNIQUES

"What other kinds of masturbation do you use?" (Examples often cited.)
This includes use of devices, sadomasochism, urethral or anal insertions, etc.
s

DURATION OF CONTINUOUS MASTURBATORY STIMULATION BEFORE ORGASM

"How long does it take you to come to climax in masturbation?" "Do you come as soon as you can or do you delay to make it last longer?"

FREQUENCY OF FANTASY ACCOMPANYING MASTURBATION

"During masturbation do you think of things and use your imagination or do you only concentrate on the physical feeling?" (Probe questions then used to ascertain frequency.)

FREQUENCY OF HETEROSEXUAL FANTASY WITH MASTURBATION

"What do you think of during masturbation? Do you think of (opposite gender)?"

FREQUENCY OF HOMOSEXUAL FANTASY WITH MASTURBATION

"What do you think of during masturbation? Do you think of (same gender)?"

FREQUENCY OF SADOMASOCHISTIC FANTASY WITH MASTURBATION

"What do you think of during masturbation? Do you think of giving or receiving pain, being forced to do something, or forcing someone to do something?"

FREQUENCY OF ANIMAL FANTASY WITH MASTURBATION

"What do you think of during masturbation? Do you think of animals?"

FREQUENCY OF BIZARRE FANTASY WITH MASTURBATION

"What other sorts of things do you think of during masturbation?"

PHYSICAL HARM FROM MASTURBATION

"Has masturbation ever done you any physical harm?"

AGE BEGAN WORRY ABOUT MASTURBATION

"Did you worry about masturbation?" If affirmative response, a second question was asked, "How old were you when you began to worry?"

REASON FOR WORRY ABOUT MASTURBATION

"Why did you worry about masturbation?"

AGE CEASED WORRY ABOUT MASTURBATION

"Do you still worry about masturbation?" If negative response, a second question was asked, "How old were you when you stopped worrying?"

REASON FOR NOT WORRYING OR CEASING TO WORRY ABOUT MASTURBATION

"Why did you stop worrying about masturbation?"

INCIDENCE OF SEXUAL DREAMS

If orgasm in sleep: "When you come to climax during sleep, are you dreaming?"
If no orgasm in sleep: "Do you have sexual dreams?"

FREQUENCY OF HETEROSEXUAL DREAMS

"Do you dream of (opposite gender)?"

FREQUENCY OF HOMOSEXUAL DREAMS

"Do you dream of (same gender)?"

FREQUENCY OF SADOMASOCHISTIC DREAMS

"Do you dream of giving or receiving pain, being forced to do something, or forcing someone to do something?"

FREQUENCY OF DREAMS OF SEX WITH ANIMALS

"Do you dream of sex with an animal?"

FREQUENCY OF BIZARRE DREAMS

"What other sexual things do you dream of?" Also, bizarre content is sometimes volunteered in answering other dream content questions.

AGE AT FIRST ORGASM DURING SLEEP

"How old were you the first time you came to climax while you were asleep?"

AGE-SPECIFIC INCIDENCE OF ORGASM IN SLEEP AMONG THE NEVER-MARRIED

None. Figures obtained from age and frequency data.

AGE-SPECIFIC INCIDENCE OF ORGASM IN SLEEP AMONG THE MARRIED

None. Figures obtained from age and frequency data.

AGE-SPECIFIC INCIDENCE OF ORGASM IN SLEEP AMONG THE WIDOWED, SEPARATED, OR DIVORCED

None. Figures obtained from age and frequency data.

FREQUENCY (MEAN) PER WEEK OF ORGASM DURING SLEEP AMONG THE NEVER-MARRIED.

"How often did you come to climax in sleep from (age at first experience) to (some salient point in life)?" Question repeated until premarital life span covered.

FREQUENCY (MEAN) PER WEEK OF ORGASM DURING SLEEP AMONG THE MARRIED

"How often did you come to climax in sleep from (age at marriage) to (some salient point in life)?" Question repeated until length of marriage covered.

FREQUENCY (MEAN) PER WEEK OF ORGASM DURING SLEEP AMONG THE WIDOWED, SEPARATED, OR DIVORCED

"How often did you come to climax in sleep from the end of the marriage to (some salient point in life)?" Question repeated until postmarital life covered.

AGE FIRST PREMARITAL PETTING

"How old were you the first time there was any hugging, kissing or petting-- anything more than a goodnight kiss?"

FREQUENCY OF PREMARITAL HUGGING

"Was there hugging--much, some, little, or none?"
The "None and offended" category consisted of those who volunteered this information; no question was asked.

FREQUENCY OF PREMARITAL KISSING

"Was there kissing?"

FREQUENCY OF PREMARITAL TONGUE KISSING

"Was there deep kissing or tongue kissing?"

FREQUENCY OF MALE HAND ON NUDE FEMALE BREAST IN PREMARITAL PETTING

"Was there hand on the bare female breast?"

FREQUENCY OF MALE MOUTH ON NUDE FEMALE BREAST IN PREMARITAL PETTING

"Was there mouth on bare female breast?"

FREQUENCY OF MALE HAND ON NUDE FEMALE GENITALS IN PREMARITAL PETTING

"Was there hand on nude female sex organ?"

FREQUENCY OF FEMALE HAND ON NUDE PENIS IN PREMARITAL PETTING

"Was there female hand on nude penis?"

FREQUENCY OF CUNNILINGUS IN PREMARITAL PETTING

"Was there mouth on female sex organ?" The "none but wants" category and "none and offended" category consist of those who volunteered this information; no question was asked.

FREQUENCY OF FELLATION IN PREMARITAL PETTING

"Was there mouth on penis?"

FREQUENCY OF APPOSITION OF NUDE GENITALS WITHOUT PENETRATION IN PREMARITAL PETTING

"Was there putting the nude sex organs together without going on and having intercourse?"

FREQUENCY OF TENSION AFTER PREMARITAL PETTING:

"After petting, if you didn't come to climax or go on to have intercourse, were you left feeling tense, nervous, or upset? "

FREQUENCY OF ACHE AFTER PREMARITAL PETTING

"After petting, if you didn't come to climax or go on to have intercourse, would you get an ache or pain in (for males: the testicles; for females: the sex organs or lower abdomen)?"

FREQUENCY OF MASTURBATION AFTER PREMARITAL PETTING

"After petting, if you didn't come to climax or go on to have intercourse, was there self-masturbation?" "How often?"

AGE FIRST ORGASM IN PREMARITAL PETTING

"How old were you the first time you came to climax from this petting?"

AGE-SPECIFIC INCIDENCE OF PREMARITAL PETTING TO ORGASM AMONG THE NEVER-MARRIED

None. Figures obtained from age and frequency data.

FREQUENCY (MEAN) PER WEEK OF ORGASM IN PETTING AMONG THE NEVER-MARRIED

"How often did you come to climax by petting from (age at first experience) to (some salient point in life)?" Question repeated until pre-marital life span covered.

FREQUENCY OF RESPONDENT BITING IN SEXUAL ACTIVITY

"Do you gently bite or nibble your partner during petting or intercourse?"
If affirmative, reply: "often, occasionally, or rarely?"

FREQUENCY OF AND RESPONSE TO BEING BITTEN IN SEXUAL ACTIVITY

"Does your partner bite you?" If affirmative reply: "often, occasionally or rarely?" and "Does it arouse you sexually?"

AGE FIRST POSTPUBERTAL COITUS

"How old were you the first time you had sexual intercourse, (put, had) the penis in the vagina?"

AGE OF FIRST COITAL PARTNER

"How old was (she,he)?"

TYPE OF FIRST COITAL PARTNER

"Was the first intercourse with a friend, a relative, someone you were engaged to, or what?" Males were also asked "...or did you pay for it?"

VIRGINITY OF FIRST COITAL PARTNER

"Had (she, he) had intercourse before?"

VAGINAL BLEEDING AT FIRST COITUS

"Did she bleed?" or "Did you bleed?" If affirmative reply, the following question was asked: "How much?"

ENJOYMENT OF FIRST COITUS

"Did you enjoy your first intercourse much, some, a little, or not at all?"

DETRACTIONS FROM ENJOYMENT OF FIRST COITUS

"Did you enjoy your first intercourse?" If any negative or qualified response we asked "What was wrong?"

AGE AT FIRST POSTPUBESCENT ORGASM IN COITUS

"How old were you the first time you came to climax in intercourse?"

TIME AFTER FIRST COITUS BEFORE ORGASM IN COITUS

"After your first intercourse, how long was it before you came to climax in intercourse?" Coital frequency was checked to be sure that elapsed time without coitus was not counted.

INTENTION TO HAVE PREMARITAL COITUS

"Do you think you will (have, have more) intercourse before marriage?" Asked only of the never-married.

In the case of the married there was no question asked, but an automatic "no" was recorded if there had been no premarital coitus and a "will" if there had been.

RESTRAINT ON PREMARITAL COITUS: MORAL RESTRAINT

"What prevented you from (having, having more) intercourse before marriage; were there moral or religious reasons?" If reply was affirmative, degree was asked.

RESTRAINT ON PREMARITAL COITUS: LACK OF OPPORTUNITY

"What prevented you from (having, having more) intercourse before marriage; was there lack of opportunity?"

RESTRAINT ON PREMARITAL COITUS: LACK OF INTEREST

"What prevented you from (having, having more) intercourse before marriage; was there lack of interest on your part?"

RESTRAINT ON PREMARITAL COITUS: FEAR OF PREGNANCY

"What prevented you from (having, having more) intercourse before marriage; was there fear of pregnancy?"

RESTRAINT ON PREMARITAL COITUS: FEAR OF VENEREAL DISEASE

"What prevented you from (having, having more) intercourse before marriage; was there fear of venereal disease?"

RESTRAINT ON PREMARITAL COITUS: FEAR OF SOCIAL REACTION

"What prevented you from (having, having more) intercourse before marriage; were you afraid of what people would think and say if they found out?"

AGE FIRST PREMARITAL COITUS AMONG THE NEVER-MARRIED

None. Data derived from answers to questions on age at first coitus, age at first marriage, etc.

AGE-SPECIFIC INCIDENCE OF PREMARITAL COITUS AMONG THE NEVER-MARRIED

None. Figures obtained from age and frequency data.

FREQUENCY (MEAN) PER WEEK OF COITUS WITH COMPANIONS AMONG THE NEVER-MARRIED

"How often was there intercourse from (age at first coitus) to (some salient point in life)?" Question repeated until premarital life span covered. Activity with, or as, a prostitute was excluded or subsequently subtracted.

FREQUENCY (MEAN) PER WEEK OF COITUS WITH PROSTITUTES AMONG THE NEVER-MARRIED

"How often was there sex with prostitutes from (age at first experience) to (some salient point in life)?"

MAXIMUM FREQUENCY OF PREMARITAL COITUS IN ANY ONE WEEK

"What was the greatest number of times you had intercourse in any one week or period of seven days?"

NUMBER OF PREMARITAL COITAL COMPANIONS

"Not counting prostitutes, with how many different (women and girls, men and boys) did you have intercourse (up to marriage, up to now)?"

AGE OF YOUNGEST NONMARITAL COITAL COMPANION SINCE RESPONDENT WAS AGE EIGHTEEN

After ascertaining total number of nonprostitute coital partners up to time of interview, the question was: "What was the age of the youngest since you were age 18 or older?"

NUMBER OF PROSTITUTES IN PREMARITAL COITUS

"How many (women, men) have you paid for having sex with you?"

INCIDENCE OF COITUS WITH FIANCÉE?FIANCÉ

Incidence derived from question: "How long did you have intercourse with your (fiancee, fiancé, future wive, future husband) before the marriage?"

NUMBER OF PREVIOUSLY VIRGINAL COITAL PARTNERS

After ascertaining total number of coital partners up to time of interview, the question was: "How many were virgins?"

DURATION OF PREMARITAL FOREPLAY

"When you have sexual intercourse, how long a time do you generally spend in petting before the penis is put in the vagina?"

FREQUENCY OF MALE HAND ON NUDE FEMALE GENITALS IN PREMARITAL FOREPLAY

"In petting before the sexual intercourse, how often was there hand on nude female sex organ: much, some, little, or none?"

FREQUENCY OF FEMALE HAND ON NUDE PENIS IN PREMARITAL FOREPLAY

"Was there female hand on nude penis?"

FREQUENCY OF CUNNILINGUS IN PREMARITAL FOREPLAY

"Was there mouth on female sex organ?"

FREQUENCY OF FELLATION IN PREMARITAL FOREPLAY

"Was there mouth on penis?"

FREQUENCY OF POSITIONS IN PREMARITAL COITUS: MALE ABOVE, FEMALE SUPINE

"How often was the male above with the female below, on her back?"

FREQUENCY OF POSITIONS IN PREMARITAL COITUS: FEMALE ABOVE, MALE SUPINE

"How often was the female above with the male below, on his back?"

FREQUENCY OF POSITIONS IN PREMARITAL COITUS SIDE BY SIDE, FACING ONE ANOTHER:

"How often were you side by side, facing one another?"

FREQUENCY OF POSITIONS IN PREMARITAL COITUS: SITTING

"How often was it in a sitting position, face to face?"

FREQUENCY OF POSITIONS IN PREMARITAL COITUS: DORSO-VENTRAL

"How often was there intercourse with the female's back toward the male?"

FREQUENCY OF POSITIONS IN PREMARITAL COITUS: STANDING

"How often was there intercourse with both of you standing?"

FREQUENCY OF POSITIONS IN PREMARITAL COITUS: ANAL COITUS

"How often was there anal intercourse; putting the penis in the anus instead of in the vagina?"

RESPONDENT'S PREFERENCE REGARDING LIGHT DURING PREMARITAL COITUS

"Do you prefer to have intercourse in the light or dark?"

PARTNER'S PREFERENCE REGARDING LIGHT DURING PREMARITAL COITUS

"Did your (partner, partners) prefer to have intercourse in the light or dark?"

INCIDENCE OF NUDITY IN PREMARITAL COITUS WITH COMPANIONS

"How much of the intercourse before marriage was with both of you (nude, naked): none, little, some, or much?"

PREFERENCE FOR NUDITY IN PREMARITAL COITUS

Following the question as to nudity in premarital coitus: "Would you have preferred to have had it in the nude, with little clothing, some clothing, or fully clothed?"

LOCATION OF PREMARITAL COITUS WITH COMPANIONS: OUTDOORS

"How much of the intercourse before marriage was outdoors?"

LOCATION OF PREMARITAL COITUS WITH COMPANIONS: AUTOMOBILE

"How much of the intercourse before marriage was in an automobile?"

LOCATION OF PREMARITAL COITUS WITH COMPANIONS: FEMALE'S RESIDENCE

"How much of the intercourse before marriage was where (the female, you) were living?"

LOCATION OF PREMARITAL COITUS WITH COMPANIONS: MALE'S RESIDENCE

"How much of the intercourse before marriage was where (the male, you) were living?"

LOCATION OF PREMARITAL COITUS WITH COMPANIONS: OTHER'S RESIDENCE

"How much of the intercourse before marriage was not in your or your partner's place, but in someone else's?"

LOCATION OF PREMARITAL COITUS WITH COMPANIONS: MOTEL

"How much of the intercourse before marriage was in a motel?"

LOCATION OF PREMARITAL COITUS WITH COMPANIONS: HOTEL

"How much of the intercourse before marriage was in a hotel?"

LOCATION OF PREMARITAL COITUS WITH COMPANIONS: BEACH

"How much of the intercourse before marriage was on a beach?"

INCIDENCE AND TYPE OF NONMARITAL PREGNANCY

These data derive from questions as to pregnancy which followed questions as to number of coital partners before marriage, during (excluding spouse), and after the termination of marriage. For males the question was: "Did you get (any of these women, this woman) pregnant?" For females the question was: "Did you get pregnant?"

FREQUENCY OF PREMARITAL USE OF CONDOMS

"How often were rubber condoms or fishskins used?"

FREQUENCY OF PREMARITAL USE OF DIAPHRAGM

"How often was a diaphragm used?"

FREQUENCY OF PREMARITAL USE OF WITHDRAWAL

"How often was withdrawal, pulling out the penis before coming to climax, used?"

FREQUENCY OF PREMARITAL USE OF RHYTHM METHOD

"How often was the rhythm method or safe period used? That is, having intercourse at the time of the month when the woman is unlikely to get pregnant."

FREQUENCY OF PREMARITAL USE OF DOUCHE FOR CONTRACEPTION

"How often was only a douche used to prevent pregnancy?"

FREQUENCY OF PREMARITAL USE OF OTHER CONTRACEPTIVE TECHNIQUES

"How often were other (contraceptives, birth control methods) used? What were they?"

TIME BETWEEN INTROMISSION AND EJACULATION OF PREMARITAL COITUS

"After the penis is inserted, how long does it take before (you come, he comes) to climax?"

CURRENT PERCENTAGE OF PREMARITAL COITUS RESULTING IN ORGASM FOR FEMALE

"What percent of the time (do, did) you come to climax in the intercourse (before marriage)?"

NUMBER OF ORGASMS PER ACT OF PREMARITAL COITUS

"How many times (do, did) you usually come to climax in each intercourse--once, twice, three times, or what?"

INCIDENCE OF REGRET ABOUT PREMARITAL COITUS

"Do you regret having had intercourse before marriage?" If reply is affirmative, a second question was: "Do you regret it little, some, or much?"

INCIDENCE AND TYPE OF INCEST

"With what relatives have you had intercourse?"

DESIRE TO MARRY

"How much do you want to get married?" or "At the time of (your, your first) marriage how much did you want to get married?"

DESIRE TO MARRY A VIRGIN

"(Do you, did you) want to marry a virgin?" if necessary, questions were asked to ascertain degree of desire.

AGE AT FIRST MARRIAGE

"Have you ever been married?" For lower socioeconomic level respondents the following phrase was added, "...or lived common law for a whole year or more?"

If the response was affirmative, the next question was "How old were you when you (married, started living common law)?"

MALE AGE AT RESPONDENT'S FIRST MARRIAGE

"How old (were you, was he) when you (married, married the first time)?"

FEMALE AGE AT RESPONDENT'S FIRST MARRIAGE

"How old (were you, was she) when you (married, married the first time)?"

STATUS OF FIRST MARRIAGE

Following an affirmative answer to the question "Have you ever been married or lived common law for as long as a year?" were probe questions "Are you living together?", "Are you separated, divorced or widowed?" etc.

LEGAL STATUS OF FIRST MARRIAGE

"Is the marriage legal or common law?"

INCIDENCE OF TERMINATED FIRST MARRIAGE

"Are you living together?" If the response was negative, inquiry was made as to separation, divorce, or death.

NUMBER OF MARRIAGES

None. The figure was derived from the total of legal and common law marriages.

NUMBER OF LEGAL MARRIAGES

"How many legal marriages have you had?"

NUMBER OF COMMON LAW MARRIAGES

"How many times have you lived common law for a whole year or more?"

DURATION OF FIRST MARRIAGE

"How long was the first marriage?" or if the respondent is married once and still married, calculate from age at marriage to age at interview and ask for confirmation: "That means you have been married (months, years)?"

TIME RESPONDENT KNEW FUTURE SPOUSE BEFORE MARRIAGE

"How long did you know (him, her) before you married?"

DURATION OF ENGAGEMENT BEFORE FIRST MARRIAGE

"Were you formally engaged? For how long?"

RELIGION OF FIRST SPOUSE

"What (was, is) your (husband's, wife's) religion?"

DEGREE OF RELIGIOUS DEVOUTNESS OF FIRST SPOUSE

"How often (did, does) (he, she) go to (Church, Synagogue)?"

EDUCATION OF FIRST SPOUSE

"How far did (he, she) go in school?"

TIME ELAPSED BETWEEN MARRIAGE AND FIRST MARITAL COITUS IN FIRST MARRIAGE

"Did you have intercourse the same day you married?" If negative reply, a second question was asked: "How long did you wait?"

REASONS FOR DELAYING CONSUMATION OF FIRST MARRIAGE MORE THAN TWENTY-FOUR HOURS

"Why did you wait?"

NUMBER OF CHILDREN DESIRED

For the never-married, "Do you want children?" if affirmative reply, "How many?" For the married, "At the time you married, did you want children?" if affirmative reply, "How many?"

STERILITY IN FIRST MARRIAGE

None. Derived from inspection of record, especially portion dealing with contraception and reproduction.

TIME BEFORE FIRST BIRTH IN FIRST MARRIAGE

"How long was it between the time you married and the birth of the first child?"

NUMBER OF MALE LIVE BIRTHS IN FIRST MARRIAGE

"How many children (have you had, did you have) in (this, that) marriage?" "How many boys?"

NUMBER OF FEMALE LIVE BIRTHS IN FIRST MARRIAGE

"How many children (have you had, did you have) in (this,that) marriage?" "How many girls?"

NUMBER OF SPONTANEOUS ABORTIONS IN FIRST MARRIAGE

"If no children born in the marriage: "How many pregnancies (have there been, were there) in the marriage?" plus, if an affirmative response was given, "How many were miscarriages or other accidental losses?" If children were born the question was "In addition to your children, how many other pregnancies (have there been were there) in the marriage?" plus the follow-up question if an affirmative response was given.

NUMBER OF INDUCED ABORTIONS IN FIRST MARRIAGE

After ascertaining the number of pregnancies exclusive of those which resulted in live birth: "How many were intentional, induced abortions?"

NUMBER OF MALE CHILDREN IN FIRST MARRIAGE NOT CONCEIVED BY RESPONDENT

"Did you take in or adopt any children, or did your (wife, husband) bring any of (her, his) children into your marriage?" If affirmative reply, another question was asked, "How many were boys?"

NUMBER OF FEMALE CHILDREN IN FIRST MARRIAGE NOT CONCEIVED BY RESPONDENT

"Did you take in or adopt any children, or did your (wife, husband) bring any of (her, his) children into your marriage?" If affirmative reply, another question was asked, "How many were girls?"

CLARITY OF CONTRACEPTIVE DATA FOR FIRST MARRIAGE

None. Derived from inspection of record.

FREQUENCY OF USE OF CONDOMS IN FIRST MARRIAGE

"How often were rubber condoms or fishskins used?"

FREQUENCY OF USE OF DIAPHRAGM IN FIRST MARRIAGE

"How often was a diaphragm used?"

FREQUENCY OF USE OF WITHDRAWAL IN FIRST MARRIAGE

"How often was withdrawal, pulling out the penis before coming to climax, used?"

FREQUENCY OF USE OF RHYTHM METHOD IN FIRST MARRIAGE

"How often was the rhythm method or safe period used? That is, having intercourse at the time of the month when the woman is unlikely to get pregnant."

FREQUENCY OF USE OF DOUCHE IN FIRST MARRIAGE

"How often was only a douche used to prevent pregnancy?"

FREQUENCY OF USE OF OTHER CONTRACEPTIVES IN FIRST MARRIAGE

"How often were other (contraceptives, birth control methods) used? What were they?"

DURATION OF FOREPLAY IN FIRST MARRIAGE

"When you (have,had) sexual intercourse with your (husband, wife) how long a time do you generally spend in petting before the penis is put in the vagina?"

FREQUENCY OF KISSING IN FOREPLAY IN FIRST MARRIAGE

"In the petting before the sexual intercourse how often was there kissing?--much, some, little, rare, or none?"

FREQUENCY OF TONGUE-KISSING IN FOREPLAY IN FIRST MARRIAGE

"In the petting before the sexual intercourse how often was there tongue-kissing?"

FREQUENCY OF MALE HAND ON FEMALE BREAST IN FOREPLAY IN FIRST MARRIAGE

"In the petting before the sexual intercourse how often was their hand on female breast?"

FREQUENCY OF MALE MOUTH ON FEMALE BREAST IN FOREPLAY IN FIRST MARRIAGE

"In the petting before the sexual intercourse how often was there mouth on female breast?"

FREQUENCY OF MALE HAND ON FEMALE GENITALS IN FOREPLAY IN FIRST MARRIAGE

"In the petting before the sexual intercourse how often was there male hand on female sex organs?"

FREQUENCY OF FEMALE HAND ON PENIS IN FOREPLAY IN FIRST MARRIAGE

"In the petting before the sexual intercourse how often was there female hand on penis?"

FREQUENCY OF CUNNILINGUS IN FOREPLAY IN FIRST MARRIAGE

"In the petting before the sexual intercourse how often was there mouth on female sex organs?"

FREQUENCY OF FELLATION IN FOREPLAY IN FIRST MARRIAGE

"In the petting before the sexual intercourse how often is there female mouth on penis?"

TIME BETWEEN INTROMISSION AND EJACULATION IN COITUS IN FIRST MARRIAGE

"After the penis (is, was) inserted, how long (does, did) it take before (you came, he came) to climax?"

AGE-SPECIFIC INCIDENCE OF MARITAL COITUS IN FIRST MARRIAGE

None. Figures obtained from age and frequency data.

FREQUENCY (MEAN) PER WEEK OF MARITAL COITUS IN FIRST MARRIAGE

"How often was there intercourse with your (wife, husband) from (age at marriage) to (some salient point in life)?"

MAXIMUM FREQUENCY OF MARITAL COITUS IN FIRST MARRIAGE

"What was the largest number of times you had intercourse with your (husband, wife) in any one week, that is, any seven days?"

FREQUENCY OF POSITIONS IN COITUS IN FIRST MARRIAGE: MALE ABOVE, FEMALE SUPINE

"How often in the (marriage, first marriage) was there intercourse with the male above and the female below on her back?"

FREQUENCY OF POSITIONS IN COITUS IN FIRST MARRIAGE: FEMALE ABOVE, MALE SUPINE

"How often in the (marriage, first marriage) was there intercourse with the female above and the male below on his back?"

FREQUENCY OF POSITIONS IN COITUS IN FIRST MARRIAGE: SIDE BY SIDE, FACING ONE ANOTHER

"How often in the (marriage, first marriage) was there intercourse side by side, facing one another?"

FREQUENCY OF POSITIONS IN COITUS IN FIRST MARRIAGE: SITTING

"How often in the (marriage, first marriage) was there intercourse in a sitting position, face to face?"

FREQUENCY OF POSITIONS IN COITUS IN FIRST MARRIAGE: DORSO-VENTRAL

"How often in the (marriage, first marriage) was there intercourse with the female's back toward the male?"

FREQUENCY OF POSITIONS IN COITUS IN FIRST MARRIAGE: STANDING

"How often in the (marriage, first marriage) was there intercourse with both of you standing?"

FREQUENCY OF POSITIONS IN COITUS IN FIRST MARRIAGE: ANAL COITUS

"How often in the (marriage, first marriage) was there anal coitus; putting the penis in the anus instead of in the vagina?"

INCIDENCE OF NUDITY IN COITUS IN FIRST MARRIAGE

"How much of the intercourse in the (marriage, first marriage) was with both of you (nude, naked): none, little, some or much?"

PREFERENCE FOR NUDITY IN COITUS IN FIRST MARRIAGE: "Would you have preferred to have had it in the nude, with little clothing, or fully clothed?"

RESPONDENT'S PREFERENCE REGARDING LIGHT DURING COITUS IN FIRST MARRIAGE

"In the (marriage, first marriage) did you prefer to have intercourse in the light or dark?"

SPOUSE'S PREFERENCE REGARDING LIGHT DURING COITUS IN FIRST MARRIAGE

"(Does, did) your (husband, wife) prefer to have intercourse in the light or dark?"

PERCENTAGE OF MARITAL COITUS RESULTING IN WIFE'S ORGASM IN FIRST MARRIAGE

"What percentage of the time (do you, does the wife) come to climax in the intercourse? Never, one out of ten times, ten out of ten, or what?"

AVERAGE NUMBER OF WIFE'S ORGASMS PER ACT OF COITUS IN FIRST MARRIAGE

"(Do you, does the wife) usually come to climax once or more than once in each intercourse?" If the reply is affirmative for more than once, a second question followed: "How many times?"

HAPPINESS RATING OF FIRST MARRIAGE

"Overall, how would you rate your (marriage, first marriage) in terms of happiness: very happy, moderately happy, moderately unhappy, or very unhappy?"

INCIDENCE OF EXTRAMARITAL SEXUAL ACTIVITY IN THE FIRST MARRIAGE

"During the marriage, how old were you the first time there was sexual intercourse with a (man, woman) other than your (husband, wife)?" The same question was asked for petting.

EXTENT TO EXTRAMARITAL PETTING IN FIRST MARRIAGE

"The same petting technique questions were asked for extra-marital activity as for premarital and marital."

INCIDENCE OF RESPONDENT'S ORGASM IN EXTRAMARITAL PETTING DURING FIRST MARRIAGE

"How often did you come to climax in this extramarital petting?"

FREQUENCY (MEAN) PER WEEK OF ORGASM IN EXTRAMARITAL PETTING AMONG THE MARRIED

"How often during your marriage did you come to climax by petting with some other (female, male) from (age at first experience) to (some salient point in life)?"

AGE AT FIRST EXTRAMARITAL COITUS DURING FIRST-MARRIAGE

"During the marriage how old were you the first time there was sexual intercourse with a (man, woman) other than your (husband, wife)?"

AGE-SPECIFIC INCIDENCE OF EXTRAMARITAL COITUS AMONG THE MARRIED

None. Figures obtained from age and frequency data.

YEAR OF FIRST MARRIAGE IN WHICH FIRST EXTRAMARITAL COITUS OCCURRED

None. Calculated from other answers.

AMOUNT OF EXTRAMARITAL COITUS WITH COMPANIONS DURING FIRST MARRIAGE

None. Calculated from other answers.

"Rare" is defined as 1 partner and/or 1-5 acts of coitus. "Incidental" is defined as 2-4 partners and/or 6-20 acts. "More than incidental" is 5-20 partners and/or 21-50 acts. "Extensive" is 21 or more partners and/or 51 or more acts.

FREQUENCY (MEAN) PER WEEK OF EXTRAMARITAL COITUS WITH COMPANIONS AMONG THE MARRIED

"How often was there intercourse with other (men, women) from (age at first extramarital coitus) to (some salient point in life)?"

NUMBER OF EXTRAMARITAL COITAL COMPANIONS DURING FIRST MARRIAGE

"During the marriage with how many different (men, women) did you have intercourse, not counting your (husband, wife) or prostitutes?"

AMOUNT OF PROSTITUTE CONTACT DURING FIRST MARRIAGE

"During the marriage how many different (women, men) did you pay for sex?"

FREQUENCY (MEAN) PER WEEK OF COITUS WITH PROSTITUTES AMONG THE MARRIED

"How often was there sex with prostitutes from (age at marriage) to (some salient point in life)?"

NUMBER OF PROSTITUTES WITH WHOM RESPONDENT HAD SEXUAL ACTIVITY DURING FIRST MARRIAGE

"During the marriage, how many different (women, men) did you pay for sex?"

EXPECTATION OF FUTURE EXTRAMARITAL COITUS

"Do you think you will (have, have more) sex with someone other than your (wife, husband) during the marriage?"

SPOUSE'S REACTION TO RESPONDENT'S EXTRAMARITAL COITUS DURING FIRST MARRIAGE

"Did your (wife, husband) know about this intercourse?" and "Did it cause any trouble between you and your (wife, husband)?"

MILITARY SERVICE AND EXTRAMARITAL COITUS DURING FIRST MARRIAGE

None. The data were derived from ages during service and ages during extramarital coitus.

NUMBER OF COITAL COMPANIONS MARRIED BUT NOT TO RESPONDENT

After ascertaining total number of nonprostitute coital partners up to the time of interview, the question was: "How many were married to someone else?"

INCIDENCE OF POSTMARITAL SEXUAL ACTIVITY AMONG THE WIDOWED, SEPARATED, OR DIVORCED

None. Figures derive from answers to various other questions.

AGE-SPECIFIC INCIDENCE OF COITUS AMONG THE WIDOWED, SEPARATED, OR DIVORCED

None. Figures obtained from age and frequency data.

FREQUENCY (MEAN) PER WEEK OF COITUS WITH COMPANIONS AMONG THE WIDOWED, SEPARATED, OR DIVORCED

"How often was there intercourse from the end of the marriage to (some salient point in life)?"

NUMBER OF POSTMARITAL COITAL COMPANIONS

"After the marriage ended with how many different (women, men) did you have intercourse, not counting prostitutes?"

INCIDENCE OF POSTMARITAL COITUS WITH FIANCÉ/FIANCÉE OR SUBSEQUENT SPOUSE

"How long (did you have, have you had) intercourse with your (fiancée, fiancé, future wife, future husband)?"

NUMBER OF PROSTITUTES WITH WHOM RESPONDENT HAD POSTMARITAL SEXUAL ACTIVITY

"After the marriage ended, how many different (women, men) did you pay for sex?"

INCIDENCE OF PETTING OR COITAL TECHNIQUES IN POSTMARITAL ACTIVITY NOT PREVIOUSLY USED

None. The data were derived from answers to other questions.

INCIDENCE OF POSTMARITAL CONCEPTION AMONG THOSE WITH COITUS

"Did any pregnancies result from this intercourse?"

INCIDENCE OF SEXUAL CONTACT WITH PROSTITUTES

None. The data were derived from questions as to age during various marital statuses, ages at contact with prostitutes, etc.

AGE AT FIRST CONTACT WITH PROSTITUTE

"How old were you the first time you paid a (female, male) for intercourse or some other sexual activity?" It was sometimes necessary to further define prostitution as involving money, excluding gifts, etc.

AMOUNT OF SEXUAL CONTACT WITH PROSTITUTES

None. The data are a composite of answers to questions regarding number of prostitutes and frequency of contacts.

AMOUNT OF PREMARITAL SEXUAL CONTACT WITH PROSTITUTES

None . The data are a composite of answers to questions regarding number of prostitutes and frequency of contacts.

AMOUNT OF POSTMARITAL SEXUAL CONTACT WITH PROSTITUTES

None. The data are a composite of answers to questions regarding number of prostitutes and frequency of contacts.

NUMBER OF PROSTITUTES PAID

"How many different (women, men) have you paid for having intercourse or some other sexual activity with you?"

INCIDENCE OF FELLATION WITH PROSTITUTES

"Was there mouth on penis?" If affirmative reply, a second question was asked: "Was that rare, little, some, or much?"

INCIDENCE OF CUNNILINGUS WITH PROSTITUTES

"Was there mouth on female sex organ?" If affirmative reply a second question was asked, "Was that rare, little, some, or much?"

PREFERENCE FOR PROSTITUTES OR NONPROSTITUTES

"Do you prefer to have intercourse with a prostitute or nonprostitute?"

REASONS FOR PREFERENCE FOR PROSTITUTES OR NONPROSTITUTES

"Why do you prefer (prostitutes, nonprostitutes)?" If respondent was indifferent, the question was "Why do you feel that way?"

INCIDENCE OF PROSTITUTION BY RESPONDENT

"Have you been paid by a (male, female) for intercourse or other sexual activity?" If reply was affirmative, other questions were asked.

AMOUNT OF HOMOSEXUAL EXPERIENCE

These data are derived from responses to questions regarding frequency and number of partners.

"Rare" is defined as 1 partner and/or 1-5 experiences; "incidental" is 2-4 partners and/or 6-20 experiences; "more than incidental" is 5-20 partners and/or 21-50 experiences ; "extensive" is 21 or more partners and/or 51 or more experiences.

FREQUENCY OF HOMOSEXUAL APPROACHES RECEIVED

"How often have you been approached by another (male, female) for sex?"

AGE AT FIRST POSTPUBERTAL HOMOSEXUAL CONTACT

"Since you were (age at puberty) how old were you the first time you had sex with another (male, female)?"

FREQUENCY (MEAN) PER WEEK OF HOMOSEXUAL CONTACT AMONG THE NEVER-MARRIED

"How often was there sex with other (men, or boys, women or girls) from (age at first experience) to (some salient point in life)?"

AGE-SPECIFIC INCIDENCE OF HOMOSEXUAL CONTACT AMONG THE NEVER-MARRIED

None. Figures obtained from age and frequency data.

AGE-SPECIFIC INCIDENCE OF HOMOSEXUAL CONTACT AMONG THE MARRIED

None. Figures obtained from age and frequency data.

AGE-SPECIFIC INCIDENCE OF HOMOSEXUAL CONTACT AMONG THE WIDOWED, SEPARATED, OR DIVORCED

None. Figures obtained from age and frequency data.

EXPECTATION OF FUTURE HOMOSEXUAL CONTACT

"Do you think you will (have, have more) sex with another (male, female) in the future?"

ATTITUDE TOWARD MALE HOMOSEXUALITY

"How do you feel about two men having sex together: do you approve, disapprove, or feel neutral?"

ATTITUDE TOWARD FEMALE HOMOSEXUALITY

"How do you feel about two women having sex together: do you approve, disapprove, or feel neutral?"

RETENTION OF HOMOSEXUAL MALES AS FRIENDS

"If you had a male friend and learned that he was homosexual, would you keep him as a friend?"

RETENTION OF HOMOSEXUAL FEMALES AS FRIENDS

"If you had a female friend and learned that she was homosexual, would you keep her as a friend?"

EXTENT OF SEXUAL CONTACT WITH ANIMALS

"Have you had sexual contact with an animal or masturbated an animal?"

AGE AT FIRST MASTURBATION OF ANIMALS

"How old were you the first time you masturbated an animal?"

AGE AT FIRST COITAL OR MOUTH-GENITAL CONTACT WITH ANIMALS

"How old were you the first time?" Asked after ascertaining the behavior had occurred.

PERIOD OF SEXUAL CONTACT WITH ANIMALS

None. The data derive from questions concerning ages and frequencies.

RURAL-URBAN STATUS AT TIME OF ANIMAL CONTACT

None. Data derived from questions concerning residence and incidence of animal contact.

AGE-SPECIFIC INCIDENCE OF ANIMAL CONTACT AMONG THE NEVER-MARRIED

None. The data derive from questions concerning ages and frequencies.

FREQUENCY OF SEXUAL CONTACT WITH ANIMALS

None. The data derive from questions concerning ages and frequencies.

FREQUENCY (MEAN) PER WEEK OF ANIMAL CONTACT AMONG THE NEVER-MARRIED

"How often was there sex with animals from (age at first experience) to (some salient point in life)?"

TYPE OF SEXUAL CONTACT WITH DOGS

"What kinds of animals were involved?" "Was there masturbation of the (animal)?" "Was the (animal's) mouth on your sex organ?" "Was your mouth on the (animal's) sex organ?" "Was the penis put in the vagina?" "In the anus?"

TYPE OF SEXUAL CONTACT WITH OTHER ANIMALS AMONG WHITE COLLEGE-EDUCATED MALES

Same question as Table 399(TYPE OF SEXUAL CONTACT WITH DOGS)

SEXUAL AROUSAL BY THINKING OF OPPOSITE SEX

"Are you sexually aroused by thinking of (women, men)?" If affirmative response: much, some, or little?"

SEXUAL AROUSAL BY SEEING OPPOSITE SEX

"Are you sexually aroused by seeing (women, men)?" If affirmative reply: "Much, some or little?"

AGE FIRST AROUSAL BY THINKING OF OR SEEING OPPOSITE SEX

"How old were you the first time you were sexually aroused by thinking of or seeing (boys or men, girls or women)?"

SEXUAL AROUSAL BY DEPICTIONS OF OPPOSITE SEX NUDE

"Do pictures of nude (women, men) arouse you sexually?" If affirmative reply: "Much, some, or little?"

SEXUAL AROUSAL BY SIGHT OF PENIS

"Does seeing a man's penis arouse you sexually much, some, little, or not at all?"

SEXUAL AROUSAL BY BURLESQUE OR NIGHT CLUB ACTS?" If affirmative reply: "Much, some, or little?"

SEXUAL AROUSAL BY LEGITIMATE MOTION PICTURES

"Are you sexually aroused by love or sex scenes in movies shown in moving picture theatres?" If affirmative reply: "Much, some, or little?"
This question applied to films shown publicly.

SEXUAL AROUSAL BY DEPICTIONS OF SEXUAL ACTIVITY

"Do pictures or photographs of sexual activity arouse you sexually?" If affirmative reply: "Much, some, or little?"

OWNERSHIP OF DEPICTIONS OF SEXUAL ACTIVITY

"Have you owned pictures or photographs of people in sexual activity?"

SEXUAL AROUSAL BY RISQUÉ STORIES AND JOKES

"Are you sexually aroused by (risqué, sexy) stories or jokes?" If affirmative reply: "Much, some, or little?"

SEXUAL AROUSAL BY EROTIC PASSAGES IN LEGITIMATE LITERATURE

"Do stories in the kind of magazines or books you can get in the library arouse you sexually?" If affirmative reply: "much, some, or little?"

SEXUAL AROUSAL BY SADOMASOCHISTIC LITERATURE

"Does reading about whipping, torture, or violence arouse you sexually?" If affirmative reply: "Much, some, or little?"

SEXUAL AROUSAL BY MUSIC

"Does listening to music or any particular musical piece arouse you sexually? If it arouses you only because it reminds you of some past experience, don't count it." If affirmative reply: "Much, some, or little?"

TYPE OF MUSIC CAUSING SEXUAL AROUSAL

"What sort of music arouses you sexually?"

SEXUAL AROUSAL BY DANCING WITH OPPOSITE SEX

"Are you sexually aroused by dancing with (women, men)?" If affirmative reply: "Much, some, or little?"

SEXUAL AROUSAL BY MOTION

"Does motion--such as being in a car or riding horseback--arouse you sexually?"

SEXUAL AROUSAL BY SEEING ANIMAL COITUS

"Does seeing animals having intercourse arouse you sexually?" If affirmative reply: "Much, some or little?"

SEXUAL AROUSAL BY SEEING FEMALE BREASTS

"Does seeing the nude breasts of a female arouse you sexually?"
The intent of this question was to ascertain possible homosexual response in females, therefore it was not asked of males.

SEXUAL AROUSAL BY SEEING ERECT PENIS

"Does seeing the erect penis of another male arouse you sexually?"

The intent of this question was to ascertain possible homosexual response in males. Therefore, it was not asked of females.

FREQUENCY OF LOOKING AT PENIS DURING MASTURBATION

"During masturbation do you look at your penis?" If affirmative reply: "often, occasionally, or rarely?"

SEXUAL AROUSAL BY SEEING SELF NUDE

"Does seeing yourself nude in a mirror arouse you sexually?"

SEXUAL AROUSAL BY SEEING SAME SEX

"Are you sexually aroused by seeing other (men, women)?" If affirmative reply: "Much, some, or little?"

AGE FIRST AROUSAL BY SEEING SAME SEX

"How old were you the first time you were sexually aroused by seeing other(boys, or men, girls or women)?"

SEXUAL AROUSAL BY SEEING BUTTOCKS OF SAME SEX

"Does seeing the nude buttocks of another (man, woman) arouse you sexually?"

SEXUAL RESPONSE TO DRINKING ALCOHOLIC BEVERAGES

"What effect does drinking alcoholic beverages have on you sexually?"

INCIDENCE OF SEEING PORNOGRAPHIC FILMS

"Have you seen a 'stag film', a movie that showed intercourse or homosexuality?" If the response was affirmative, other questions were asked as to content, arousal, and age.

INCIDENCE OF OBSERVING COITUS

"Have you seen anyone else having intercourse?"

INCIDENCE OF AROUSAL FROM SEEING COITUS

Following affirmative response to question about seeing coitus: "Did it arouse you sexually?" "How much?"

INCIDENCE OF OBSERVING PARENTAL COITUS

"Did you ever see your parents having intercourse?"

INCIDENCE OF OBSERVING LIVE SEX SHOW

"Have you seen a live sex show where people performed sexually before an audience?"

If affirmative reply, a second question was asked: "What did (it, they) show?"

INCIDENCE OF BEIN SEEN IN COITUS

"Has anyone seen you having intercourse?"

HOMOSEXUAL SAMPLE: AGE AT INTERVIEW

HOMOSEXUAL SAMPLE: AGE AT INTERVIEW (CONTINUED)

"How old are you?"

HOMOSEXUAL SAMPLE: YEAR OF BIRTH

"In what year were you born?"

HOMOSEXUAL SAMPLE: EDUCATION

"How far did you go (have you gone) in school?"

HOMOSEXUAL SAMPLE: PRIMARY OCCUPATION

"What jobs or occupations have you had that lasted at least a year?"

HOMOSEXUAL SAMPLE: CURRENT RELIGION

"What is your religion?"

HOMOSEXUAL SAMPLE: CURRENT DEGREE OF DEVOUTNESS

"How often do you go to (Church, Synagogue)?"
Devout was ordinarily based on frequency of attendance.

HOMOSEXUAL SAMPLE: RESPONDENT'S CURRENT ECONOMIC STATUS

"How would you rate yourself now financially?" A few examples were often given.

HOMOSEXUAL SAMPLE: PRIMARY REGION OF RESIDENCE AS ADULT

A series of questions were asked: "Where were you born? You lived there up to what age? Then where did you go?" etc., until the current residence and age was reached.

HOMOSEXUAL SAMPLE: RURAL-URBAN CLASSIFICATION AS ADULT

"Have you ever lived on a farm or ranch for one full year or longer?" If affirmative response, a second question was asked, "How old were you then?"

HOMOSEXUAL SAMPLE: NUMBER OF MARRIAGES

None. The figure was derived from the total of legal and common law marriages.

HOMOSEXUAL SAMPLE: STATUS OF FIRST MARRIAGE

Following an affirmative answer to the question, "Have you ever been married or lived common law for as long as a year?" were probe questions such as "Are you separated, widowed, or divorced?" "When you get out of prison, will you get back together again?"

HOMOSEXUAL SAMPLE: AGE AT FIRST POSTPUBERTAL HOMOSEXUAL CONTACT

"Since you were (age at puberty) how old were you the first time you had sex with another (male, female)?"

HOMOSEXUAL SAMPLE: AGE OF PARTNER IN FIRST POSTPUBERTAL HOMOSEXUAL CONTACT

"How old was (he, she) then?"

HOMOSEXUAL SAMPLE: INITIATIVE IN FIRST POSTPUBERTAL HOMOSEXUAL CONTACT

"Who made the first move? Did (he, she) approach you or did you approach (him, her)?"

HOMOSEXUAL SAMPLE: TYPE OF FIRST PARTNER IN HOMOSEXUAL CONTACT

"Was this first experience with a stranger, acquaintance, friend, relative, or whom?"

HOMOSEXUAL SAMPLE: TECHNIQUE OF FIRST POSTPUBERTAL HOMOSEXUAL CONTACT

"In that first contact what did the two of you do sexually?"

HOMOSEXUAL SAMPLE: ENJOYMENT OF FIRST POSTPUBERTAL HOMOSEXUAL CONTACT

"Did you enjoy your first homosexual contact much, some, a little, or not at all?"

HOMOSEXUAL SAMPLE: AGE FIRST MASTURBATED BY PARTNER OF SAME SEX

"How old were you the first time another (male, female) masturbated you?"

HOMOSEXUAL SAMPLE: AGE FIRST MASTURBATED PARTNER OF SAME SEX

"How old were you the first time you masturbated another (male, female)?"

HOMOSEXUAL SAMPLE: AGE FIRST MOUTH-GENITAL CONTACT BY PARTNER OF SAME SEX

"How old were you the first time another (male, female) put (his,her) mouth on your (penis, sex organs)?"

HOMOSEXUAL SAMPLE: AGE FIRST PENILE ANAL PENETRATION OF RESPONDENT BY MALE

"How old were you the first time another male put his penis in your anus?"

HOMOSEXUAL SAMPLE: AGE FIRST BODY CONTACT-FRICTATION

"How old were you the first time you and another (male, female) held each other and rubbed your nude bodies together?"

For males this table is not age when technique was first used, but age at first orgasm from this technique.

HOMOSEXUAL SAMPLE: AGE FIRST INTERCRURAL INSERTION BY RESPONDENT ON MALE

"How old were you the first time you put your penis between another male's thighs, but not in his anus?"

HOMOSEXUAL SAMPLE: AGE FIRST INTERCRURAL INSERTION BY MALE ON RESPONDENT

"How old were you the first time another male put his penis between your thighs, but not in your anus?"

HOMOSEXUAL SAMPLE: FREQUENCY OF HOMOSEXUAL CONTACT IN FIRST YEAR AFTER BEGINNING

"Including that first experience, how often did you have sex with another (male, female) in the following twelve months?"

HOMOSEXUAL SAMPLE: NUMBER OF POSTPUBERTAL YEARS IN WHICH HOMOSEXUAL CONTACT OCCURRED

None. Calculated from answers to other questions.

HOMOSEXUAL SAMPLE: MAXIMUM NUMBER OF HOMOSEXUAL CONTACTS IN ONE WEEK

"What was the largest number of times you ever had sex with another (male, female) in any one week or seven-day period?"

HOMOSEXUAL SAMPLE: NUMBER OF PARTNERS WITH WHOM HOMOSEXUAL CONTACT

"Since you have been (age at puberty) with how many different (males, females) have you had sex?"

HOMOSEXUAL SAMPLE: AGE OF YOUNGEST SAME-SEX PARTNER SINCE RESPONDENT WAS AGE EIGHTEEN

After ascertaining the total number of partners of the same sex, the question was "What was the age of the youngest (male, female) since you were age 18 or older?"

HOMOSEXUAL SAMPLE: NUMBER OF SAME-SEX PARTNERS SAME AGE AS RESPONDENT

"At the time, how many were your age--none, few, some, many, very many, or most?"

HOMOSEXUAL SAMPLE: NUMBER OF SAME-SEX PARTNERS OLDER THAN RESPONDENT

"At the time, how many were older than you were?"

HOMOSEXUAL SAMPLE: NUMBER OF SAME-SEX PARTNERS YOUNGER THAN RESPONDENT

"At the time, how many were younger than you were?"

HOMOSEXUAL SAMPLE: NUMBER OF SAME-SEX PARTNERS MARRIED

"At the time, how many of them were married to a (woman, man)?"

HOMOSEXUAL SAMPLE: NUMBER OF PARTNERS WITHOUT PRIOR HOMOSEXUAL CONTACT

"How many of your sexual partners do you think had not had sex with another (male, female) before?"

HOMOSEXUAL SAMPLE: PERCENT OF PARTNERS WITH WHOM RESPONDENT HAD ONLY ONE CONTACT

"What percentage of your partners did you have sex with just once?"

HOMOSEXUAL SAMPLE: INITIATIVE IN APPROACH

"Who makes the first move in an approach--you or the other (male, female)?"

HOMOSEXUAL SAMPLE: DURATION OF LONGEST CONTINUOUS HOMOSEXUAL RELATIONSHIP

"How long did your longest uninterrupted affair last?"

HOMOSEXUAL SAMPLE: NUMBER OF LOVE AFFAIRS

"How many of the relationships were love affairs?"

HOMOSEXUAL SAMPLE: NUMBER OF WHITE SAME-SEX PARTNERS

"How many of your partners were white?"

HOMOSEXUAL SAMPLE: NUMBER OF BLACK SAME-SEX PARTNERS

"How many of your partners were black?"

HOMOSEXUAL SAMPLE: NUMBER OF NON-WHITE NON-BLACK SAME-SEX PARTNERS

"How many of your partners were of other races?" [Asked after the questions as to white and black partners.]

HOMOSEXUAL SAMPLE: NUMBER OF HOMOSEXUAL CONTACTS INVOLVING THREE OR MORE PARTNERS

"How many times have you had group activity, that is where more than two of you were sexually involved at the same time?"

HOMOSEXUAL SAMPLE: AGE FIRST KISSED SAME-SEX PARTNER

"How old were you the first time you kissed another (male, female) sexually?"

HOMOSEXUAL SAMPLE: FREQUENCY OF SAME-SEX PARTNER KISSING RESPONDENT

"How often do they kiss you? Never, rarely, little, sometimes, or often?"

HOMOSEXUAL SAMPLE: FREQUENCY OF RESPONDENT KISSING SAME-SEX PARTNER

"How often do you kiss them?"

HOMOSEXUAL SAMPLE: FREQUENCY OF SAME-SEX PARTNER TONGUE-KISSING RESPONDENT

"How often do they tongue-kiss you?"

HOMOSEXUAL SAMPLE: FREQUENCY OF RESPONDENT TONGUE-KISSING SAME-SEX PARTNER

"How often do you tongue-kiss them?"

HOMOSEXUAL SAMPLE: FREQUENCY OF SAME-SEX PARTNER MANIPULATING RESPONDENT'S BREAST

"How often do they put their hands on your breast?"

HOMOSEXUAL SAMPLE: FREQUENCY OF RESPONDENT MANIPULATING BREAST OF SAME-SEX PARTNER

"How often do you put your hand on their breast?"

HOMOSEXUAL SAMPLE: FREQUENCY OF SAME-SEX PARTNER'S MOUTH ON RESPONDENT'S BREAST

"How often do they put their mouth on your breast?"

HOMOSEXUAL SAMPLE: FREQUENCY OF RESPONDENT'S MOUTH ON SAME-SEX PARTNER'S BREAST

"How often do you put your mouth on their breast?"

HOMOSEXUAL SAMPLE: FREQUENCY OF SAME-SEX PARTNER MANIPULATING RESPONDENT'S GENITALIA

HOMOSEXUAL SAMPLE: FREQUENCY OF RESPONDENT MANIPULATING SAME-SEX PARTNER'S GENITALIA

"How often do you put your hand on their (penis, sex organ)?"

HOMOSEXUAL SAMPLE: FREQUENCY OF SAME-SEX PARTNER'S MOUTH ON RESPONDENT'S GENITALIA

"How often do they put their mouth on your (penis, sex organ)?"

HOMOSEXUAL SAMPLE: FREQUENCY OF RESPONDENT'S MOUTH ON SAME-SEX PARTNER'S GENITALIA

"How often do you put your mouth on their (penis, sex organ)?"

HOMOSEXUAL SAMPLE: FREQUENCY OF SADISTIC BEHAVIOR BY SAME-SEX PARTNER

"How often have they whipped you, spanked you, tied you up, or other sadistic thing?"

HOMOSEXUAL SAMPLE: FREQUENCY OF SADISTIC BEHAVIOR BY RESPONDENT

"How often have you whipped or spanked them or tied them up, or other sadistic thing?"

HOMOSEXUAL SAMPLE: FREQUENCY OF URINATION BY SAME-SEX PARTNER ON RESPONDENT

"How often do they urinate on you as part of the sex play?"

HOMOSEXUAL SAMPLE: FREQUENCY OF URINATION BY RESPONDENT ON SAME-SEX PARTNER

"How often do you urinate on them as part of the sex play?"

HOMOSEXUAL SAMPLE: FREQUENCY OF ANALINCTUS BY SAME-SEX PARTNER ON RESPONDENT

"How often do they rim you, that is put their mouth on your anus?"

HOMOSEXUAL SAMPLE: FREQUENCY OF ANALINCTUS BY RESPONDENT ON SAME-SEX PARTNER

"How often do you rim them, that is put your mouth on their anus?"

HOMOSEXUAL SAMPLE: PERCENTAGE OF HOMOSEXUAL CONTACTS RESULTING IN ORGASM FOR PARTNER

"What percentage of the time does your partner come to climax? Never, one out of ten times, ten out of ten, or what?"

HOMOSEXUAL SAMPLE: SOURCE OF PARTNER'S ORGASM/GENITAL MANIPULATION BY RESPONDENT

"What percentage of the time do they come to climax from your hand on their (penis, sex organ)?"

HOMOSEXUAL SAMPLE: SOURCE OF PARTNER'S ORGASM/GENITAL MANIPULATION BY RESPONDENT

"What percentage of the time do they come to climax from your hand on their (penis, sex organ)?"

HOMOSEXUAL SAMPLE: SOURCE OF PARTNER'S ORGASM/RESPONDENT'S MOUTH ON GENITALIA

"What percentage of the time do they come to climax from your mouth on their (penis, sex organ)?"

HOMOSEXUAL SAMPLE: SOURCE OF PARTNER'S ORGASM/BODY CONTACT-FRICTATION

"What percentage of the time do they come to climax from holding you and rubbing your bodies together?"

HOMOSEXUAL SAMPLE: SOURCE OF PARTNER'S ORGASM/ANAL INSERTION BY PARTNER

"What percentage of the time do they come to climax from inserting their penis in your anus?"

HOMOSEXUAL SAMPLE: SOURCE OF PARTNER'S ORGASM INTERCRURAL INSERTION BY PARTNER

"What percentage of the time do they come to climax from putting their penis between your thighs, but not in your anus?"

HOMOSEXUAL SAMPLE: SOURCE OF PARTNER'S ORGASM/OTHER TECHNIQUES

"What percentage of the time do they come to climax from other ways?"

HOMOSEXUAL SAMPLE: PERCENTAGE OF HOMOSEXUAL CONTACTS RESULTING IN ORGASM FOR RESPONDENT

"What percentage of the time (do you, did you) come to climax? Never, one out of ten times, ten out of ten, or what?"

HOMOSEXUAL SAMPLE: SOURCE OF RESPONDENT'S ORGASM/SPONTANEOUS

"What percentage of the time do you come to climax spontaneously, that is, without the other person doing anything; to you?"

HOMOSEXUAL SAMPLE: SOURCE OF RESPONDENT'S ORGASM / GENITAL MANIPULATION BY PARTNER

"What percentage of the time do you come to climax from their hand on your (penis, sex organ)?"

HOMOSEXUAL SAMPLE: SOURCE OF RESPONDENT'S ORGASM/PARTNER'S MOUTH ON GENITALIA

"What percentage of the time do you come to climax from their mouth on your (penis, sex organ)?"

HOMOSEXUAL SAMPLE: SOURCE OF RESPONDENT'S ORGASM/ANAL INSERTION BY RESPONDENT

"What percentage of the time do you come to climax from inserting your penis in their anus?"

HOMOSEXUAL SAMPLE: SOURCE OF RESPONDENT'S ORGASM/BODY CONTACT-FRICTATION

"What percentage of the time do you come to climax from holding them and rubbing your bodies together?"

HOMOSEXUAL SAMPLE: SOURCE OF RESPONDENT'S ORGASM/OTHER TECHNIQUES

"What percentage of the time do you come to climax from some other ways?"

HOMOSEXUAL SAMPLE: PERCENTAGE OF CONTACTS RESULTING IN SIMULTANEOUS ORGASM

"What percentage of the time do the two of you come to climax at the same time?"

HOMOSEXUAL SAMPLE: RESPONDENT'S PREFERENCE REGARDING LIGHT DURING HOMOSEXUAL CONTACT

"Do you prefer to have sex with another (male, female) in the light or dark?"

HOMOSEXUAL SAMPLE: INCIDENCE OF NUDITY IN HOMOSEXUAL CONTACTS

"How much of your sex with other (males, females) was with both of you (nude, naked): none, some, or all of it?"

HOMOSEXUAL SAMPLE: LOCATION OF MEETING SAME-SEX PARTNERS--STREETS

"What percentage of your (male, female) sex partners did you pick up on the streets?"

HOMOSEXUAL SAMPLE: LOCATION OF MEETING OF SAME-SEX PARTNERS--THEATRES

"What percentage of your (male, female) sex partners did you pick up in movies and theatres?"

HOMOSEXUAL SAMPLE: LOCATION OF MEETING SAME-SEX PARTNERS--PARKS

"What percentage of your (male, female) sex partners did you pick up in parks?"

HOMOSEXUAL SAMPLE: LOCATION OF MEETING SAME-SEX PARTNERS--TAVERNS

"What percentage of your (male, female) sex partners did you pick up in bars and taverns?"

HOMOSEXUAL SAMPLE: LOCATION OF MEETING SAME-SEX PARTNERS--PUBLIC TOILETS

"What percentage of your (male, female) sex partners did you pick up in public toilets?"

HOMOSEXUAL SAMPLE: LOCATION OF MEETING SAME--SEX PARTNERS--BEACHES

"What percentage of your (male, female) sex partners did you pick up on beaches?"

HOMOSEXUAL SAMPLE: LOCATION OF MEETING SAME-SEX PARTNERS--HITCH-HIKING

"What percentage of your (male, female) sex partners did you pick up while either you or they were hitch-hiking?"

HOMOSEXUAL SAMPLE: LOCATION OF MEETING SAME-SEX PARTNERS--TRANSPORTATION TERMINALS

"What percentage of your (male, female) sex partners did you pick up in bus stations, railroad stations, or airports?"

HOMOSEXUAL SAMPLE: LOCATION OF MEETING SAME-SEX PARTNERS--BATHS

"What percentage of your (male, female) sex partners did you pick up in baths?"

HOMOSEXUAL SAMPLE: LOCATION OF HOMOSEXUAL CONTACTS--OUTDOORS

"How much of your sex with other (males, females) was outdoors?"

HOMOSEXUAL SAMPLE: LOCATION OF HOMOSEXUAL CONTACTS --RESPONDENT'S RESIDENCE

"How much of your sex with other (males, females) was in your (house, apartment)?"

HOMOSEXUAL SAMPLE: LOCATION OF HOMOSEXUAL CONTACTS--PARTNER'S RESIDENCE

"How much of your sex with other (males, females) was in their houses or apartment?"

HOMOSEXUAL SAMPLE: LOCATION OF HOMOSEXUAL CONTACTS--HOTEL

"How much of your sex with other (males, females) was in hotels?"

HOMOSEXUAL SAMPLE: LOCATION OF HOMOSEXUAL CONTACTS--MOTEL

"How much of your sex with other (males, females) was in motels?"

HOMOSEXUAL SAMPLE: LOCATION OF HOMOSEXUAL CONTACTS--AUTOMOBILE

"How much of your sex with other (males, females) was in automobiles?"

HOMOSEXUAL SAMPLE: LOCATION OF HOMOSEXUAL CONTACTS--BEACH

"How much of your sex with other (males, females) was outdoors on a beach?"
This question was not routinely asked of females.

HOMOSEXUAL SAMPLE: LOCATION OF HOMOSEXUAL CONTACTS--PUBLIC TOILETS

"How much of your sex with other (males, females) was in public toilets?"
This question was not routinely asked of females.

HOMOSEXUAL SAMPLE: LOCATION OF HOMOSEXUAL CONTACTS--BATHS

"How much of your sex with other (males, females) was in steam baths or turkish baths?"
This question was not routinely asked of females.

HOMOSEXUAL SAMPLE: LOCATION OF HOMOSEXUAL CONTACTS--OTHER

"How much of your sex with other (males, females) was in other places?"

HOMOSEXUAL SAMPLE: PREFERENCE FOR MASCULINE OR FEMININE SAME-SEX PARTNER

"Do you prefer (male, female) partner to be more masculine or more feminine?"

HOMOSEXUAL SAMPLE: PREFERENCE REGARDING BODY HAIR

"Do you prefer they have no body hair, little, some, or much?"

HOMOSEXUAL SAMPLE: PREFERENCE REGARDING PENIS SIZE

"Do you prefer your partner to have a small, medium, or large penis?"

HOMOSEXUAL SAMPLE: PREFERENCE REGARDING BREAST SIZE

"Do you prefer your partners to have small, medium, or large breasts?"

HOMOSEXUAL SAMPLE: PERCENTAGE OF SAME-SEX PARTNERS WHO WERE STRANGERS

"What percentage of your (male, female) sexual partners were strangers to you when you first had sex with them?"

HOMOSEXUAL SAMPLE: GRADE SCHOOL TROUBLE OVER HOMOSEXUALITY

"How much trouble did you have in grade school because of your homosexuality?"

HOMOSEXUAL SAMPLE: HIGH SCHOOL TROUBLE OVER HOMOSEXUALITY

"How much trouble did you have in high school because of your homosexuality?"

HOMOSEXUAL SAMPLE: COLLEGE TROUBLE OVER HOMOSEXUALITY

"How much trouble did you have in college because of your homosexuality?"

HOMOSEXUAL SAMPLE: MILITARY TROUBLE OVER HOMOSEXUALITY

"How much trouble did you have in military service because of your homosexuality?"

HOMOSEXUAL SAMPLE: BUSINESS TROUBLE OVER HOMOSEXUALITY

"How much trouble did you have in your employment or business life because of your homosexuality?"

HOMOSEXUAL SAMPLE: POLICE TROUBLE OVER HOMOSEXUALITY

"Have you been picked up by the police, arrested, or convicted because of your homosexuality?"

HOMOSEXUAL SAMPLE: FAMILY TROUBLE OVER HOMOSEXUALITY

"How much trouble have you had with your family because of your homosexuality?"

HOMOSEXUAL SAMPLE: FREQUENCY RESPONDENT ROBBED SAME-SEX PARTNERS

"How often have you robbed or rolled a (male, female) sexual partner?"

HOMOSEXUAL SAMPLE: FREQUENCY RESPONDENT ROBBED BY SAME-SEX PARTNERS

"How often have you been robbed or rolled by a (male, female) sexual partner?"

HOMOSEXUAL SAMPLE: FREQUENCY RESPONDENT BLACKMAILED BY SAME-SEX PARTNERS

"How often have you been blackmailed by a (male, female) sexual partner?"

HOMOSEXUAL SAMPLE: FREQUENCY RESPONDENT BLACKMAILED SAME-SEX PARTNERS

"How often have you blackmailed a (male, female) sexual partner?"

HOMOSEXUAL SAMPLE: FREQUENCY RESPONDENT PAID BY PARTNER FOR HOMOSEXUAL CONTACT

"How often have you been paid by another (male, female) for sex?"

HOMOSEXUAL SAMPLE: FREQUENCY RESPONDENT KEPT BY SAME-SEX PARTNERS

"How often have you been kept by another (male, female)?"

HOMOSEXUAL SAMPLE: MAXIMUM TIME RESPONDENT KEPT BY SAME-SEX PARTNER

"What is the longest time you were ever kept by another (male, female)?"

HOMOSEXUAL SAMPLE: FREQUENCY RESPONDENT KEPT SAME-SEX PARTNERS

"How often have you kept another (male, female)?"

HOMOSEXUAL SAMPLE: MAXIMUM TIME RESPONDENT KEPT SAME-SEX PARTNER

"What is the longest time you kept another (male, female)?"

HOMOSEXUAL SAMPLE: OBVIOUSNESS/HAND MOVEMENT

"Is there anything in the way you use your hands that would make someone suspect you were homosexual?"

HOMOSEXUAL SAMPLE: OBVIOUSNESS/WALK

"Is there anything in the way of your walk or moving your hips that would make someone suspect you were homosexual?"

HOMOSEXUAL SAMPLE: OBVIOUSNESS/VOICE

"Is there anything about your voice or the way you talk that would make someone suspect you were homosexual?"

HOMOSEXUAL SAMPLE: OBVIOUSNESS/DRESS

"Is there anything in the way you dress that would make someone suspect you were homosexual?"

HOMOSEXUAL SAMPLE: FREQUENCY OF CROSS-DRESSING

"How often (do you, did you) go in 'drag'--that is dress in (male, female) clothing?"

HOMOSEXUAL SAMPLE: OBVIOUSNESS/HAIR

"Is there anything about your hair that would make someone suspect you were homosexual?"

HOMOSEXUAL SAMPLE: FREQUENCY VISITING HOMOSEXUAL TAVERNS

"How often do you go to homosexual bars and taverns?"

HOMOSEXUAL SAMPLE: PERCENTAGE OF FRIENDS WHO ARE HOMOSEXUAL

"What percentage of your friends are homosexual?"

HOMOSEXUAL SAMPLE: HETEROSEXUAL-HOMOSEXUAL RATING SCALE

After explaining the 7 point(0-6) scale to the respondent we asked, "Where would you rate yourself now on this scale?"

HOMOSEXUAL SAMPLE: REGRET OVER BEING HOMOSEXUAL

"Do you regret having been homosexual?" If affirmative reply, an additional question was asked, "How much?"

HOMOSEXUAL SAMPLE: REASONS FOR REGRET

If affirmative response was received to the question "Do you regret having been homosexual?" A second question was asked: "Why do you regret having been homosexual?"

HOMOSEXUAL SAMPLE: DESIRE TO CEASE HOMOSEXUAL ACTIVITY

"Do you want to stop having homosexual activity?"

HOMOSEXUAL SAMPLE: ABILITY TO CEASE HOMOSEXUAL ACTIVITY

"Do you think you could stop?"

HOMOSEXUAL SAMPLE: DESIRE FOR HOMOSEXUAL MONOGAMY

"Do you want a monogamous relationship, that is where the two of you have sex only with one another?"

HOMOSEXUAL SAMPLE: ADVICE RESPONDENT WOULD GIVE TO ADOLESCENT

"If an adolescent (boy, girl) who was just beginning both hetero and homosexual activity came to you and asked you advice as to whether to continue or stop homosexual activity what would you tell (him,her)?"

HOMOSEXUAL SAMPLE: CAUSATIVE FACTORS IN RESPONDENT'S HOMOSEXUALITY

"What things do you think made you become homosexual?"

HOMOSEXUAL SAMPLE: ESTIMATE OF PERSONS OF RESPONDENT'S GENDER WITH HOMOSEXUAL EXPERIENCE

"What percentage of the (males, females) in the United States do you think have had sex, as an adult, with another (male, female) at least once?"

DELINQUENT SAMPLE: AGE AT INTERVIEW

"How old are You?"

DELINQUENT SAMPLE: YEAR OF BIRTH

"In what year were you born?"

DELINQUENT SAMPLE: PRIMARY REGION OF RESIDENCE AS ADULT

A series of questions were asked: "Where were you born? You lived there up to what age? Then where did you go?" etc. until the current residence and age was reached.
